and ... Conference of CASTME Africa
Modern Language Association
Becoming a more effective learner and
boosting your productivity will help you
earn better grades - but it'll also cut
down on your study time. This is a short,
meaty book that will guide you through
ten steps to achieving those goals: Pay
better attention in class, Take more

effective notes, Get more out of your
textbooks, Plan like a general, Build a
better study environment, Fight entropy
and stay organized, Defeat
Procrastination, Study smarter, Write
better papers, Make group projects suck
less, Whether you're in college or high
school, this book will probably help you.
But not if you're a raccoon. I want to be
very clear about that; if you're a
raccoon, please buy a different book.
This one will do absolutely nothing for
you. How did you even learn to read,
anyway?

Wuthering Heights Academic Press
#1 NEW YORK TIMES BESTSELLER •
David Brooks challenges us to rebalance the scales between the focus on external success—“résumé virtues”—and our core principles. NAMED ONE OF THE BEST BOOKS OF THE YEAR BY THE ECONOMIST With the wisdom, humor, curiosity, and sharp insights that have brought millions of readers to his New York Times column and his previous bestsellers, David Brooks has consistently illuminated our daily lives in surprising and original ways. In *The Social Animal*, he explored the neuroscience of human connection and how we can flourish together. Now, in *The Road to Character*, he focuses on the deeper values that should inform our lives. Looking to some of the world’s

greatest thinkers and inspiring leaders, Brooks explores how, through internal struggle and a sense of their own limitations, they have built a strong inner character. Labor activist Frances Perkins understood the need to suppress parts of herself so that she could be an instrument in a larger cause. Dwight Eisenhower organized his life not around impulsive self-expression but considered self-restraint. Dorothy Day, a devout Catholic convert and champion of the poor, learned as a young woman the vocabulary of simplicity and surrender. Civil rights pioneers A. Philip Randolph and Bayard Rustin learned reticence and the logic of self-discipline, the need to distrust oneself even while waging a noble crusade. Blending psychology, politics, spirituality, and confessional,

The Road to Character provides an opportunity for us to rethink our priorities, and strive to build rich inner lives marked by humility and moral depth. “Joy,” David Brooks writes, “is a byproduct experienced by people who are aiming for something else. But it comes.” Praise for The Road to Character “A hyper-readable, lucid, often richly detailed human story.”—The New York Times Book Review “This profound and eloquent book is written with moral urgency and philosophical elegance.”—Andrew Solomon, author of Far from the Tree and The Noonday Demon “A powerful, haunting book that works its way beneath your skin.”—The Guardian “Original and eye-opening . . . Brooks is a normative version of Malcolm Gladwell, culling from a wide array of

scientists and thinkers to weave an idea bigger than the sum of its parts.”—USA Today

The West African Examinations Council: the First 21 Years (1952-1973) Ardent Media

This is an African retelling of Euripides: an unnervingly topical story of a people and a beloved city destroyed by the brutality of war. The play was first performed in Lagos in 2003 under the distinguished director Chuck Mike, and subsequently toured the UK.

Lonely Days Random House

Molecular Virology of Human Pathogenic Viruses presents robust coverage of the key principles of molecular virology while emphasizing virus family structure and providing key context points for topical advances in the field. The book is

organized in a logical manner to aid in student discoverability and comprehension and is based on the author's more than 20 years of teaching experience. Each chapter will describe the viral life cycle covering the order of classification, virion and genome structure, viral proteins, life cycle, and the effect on host and an emphasis on virus-host interaction is conveyed throughout the text. *Molecular Virology of Human Pathogenic Viruses* provides essential information for students and professionals in virology, molecular biology, microbiology, infectious disease, and immunology and contains outstanding features such as study questions and recommended journal articles with perspectives at the end of each chapter to assist students with

scientific inquiries and in reading primary literature. Presents viruses within their family structure Contains recommended journal articles with perspectives to put primary literature in context Includes integrated recommended reading references within each chapter Provides access to online ancillary package inclusive of annotated PowerPoint images, instructor's manual, study guide, and test bank [Harvest of Corruption](#) Test Prep Books Negritude has been defined by Léopold Sédar Senghor as "the sum of the cultural values of the black world as they are expressed in the life, the institutions, and the works of black men." Sylvia Washington Bâ analyzes Senghor's poetry to show how the concept of negritude infuses it at every level. A

biographical sketch describes his childhood in Senegal, his distinguished academic career in France, and his election as President of Senegal. Themes of alienation and exile pervade Senghor's poetry, but it was by the opposition of his sensitivity and values to those of Europe that he was able to formulate his credo. Its key theme, and the supreme value of black African civilization, is the concept of life forces, which are not attributes or accidents of being, but the very essence of being. Life is an essentially dynamic mode of being for the black African, and it has been Senghor's achievement to communicate African intensity and vitality through his use of the nuances, subtleties, and sonorities of the French language. In the final chapter Sylvia

Washington Bâ discusses the future of Senghor's belief that the black man's culture should be recognized as valid not simply as a matter of human justice, but because the values of negritude could be instrumental in the reintegration of positive values into western civilization and the reorientation of contemporary man toward life and love. Originally published in 1973. The Princeton Legacy Library uses the latest print-on-demand technology to again make available previously out-of-print books from the distinguished backlist of Princeton University Press. These editions preserve the original texts of these important books while presenting them in durable paperback and hardcover editions. The goal of the Princeton Legacy Library is to vastly increase access to the rich

scholarly heritage found in the thousands of books published by Princeton University Press since its founding in 1905.

Concepts of Biology is designed for the single-semester introduction to biology course for non-science majors, which for many students is their only college-level science course. As such, this course represents an important opportunity for students to develop the necessary knowledge, tools, and skills to make informed decisions as they continue with their lives. Rather than being mired down with facts and vocabulary, the typical non-science major student needs information presented in a way that is easy to read and understand. Even more

importantly, the content should be meaningful. Students do much better when they understand why biology is relevant to their everyday lives. For these reasons, Concepts of Biology is grounded on an evolutionary basis and includes exciting features that highlight careers in the biological sciences and everyday applications of the concepts at hand. We also strive to show the interconnectedness of topics within this extremely broad discipline. In order to meet the needs of today's instructors and students, we maintain the overall organization and coverage found in most syllabi for this course. A strength of Concepts of Biology is that instructors can customize the book, adapting it to the approach that works best in their classroom. Concepts of Biology also

includes an innovative art program that incorporates critical thinking and clicker questions to help students understand--and apply--key concepts.

From legendary playwright August Wilson comes the powerful, stunning dramatic bestseller that won him critical acclaim, including the Tony Award for Best Play and the Pulitzer Prize. Troy Maxson is a strong man, a hard man. He has had to be to survive. Troy Maxson has gone through life in an America where to be proud and black is to face pressures that could crush a man, body and soul. But the 1950s are yielding to the new spirit of liberation in the 1960s, a spirit that is changing the world Troy

Maxson has learned to deal with the only way he can, a spirit that is making him a stranger, angry and afraid, in a world he never knew and to a wife and son he understands less and less. This is a modern classic, a book that deals with the impossibly difficult themes of race in America, set during the Civil Rights Movement of the 1950s and 60s. Now an Academy Award-winning film directed by and starring Denzel Washington, along with Academy Award and Golden Globe winner Viola Davis.

Awarded the Maxwell Medallion and Voted "Best Children's Book" by the Dog Writers Association of America. Mary-Alice and her friends like pretty clothes and hanging with the in-crowd, but when

she requests a puppy for her birthday, her parents decide the fluffy one with the pink bow in the pet store window may not be the best choice. Instead, Mary-Alice ends up at the local Animal Shelter where she not only saves the life of a loving older dog, but learns that once you look beyond the plain cover of things, you can be treated to the true joys that lie underneath! Looking beyond the cover is truly canine in that dogs do not judge others based on their income, beauty or status. They live in the moment, rejoicing in every kindness they are shown. Humans, young and not-so-young, can learn pawmazing lessons from our four-legged friends when they

Ovarian Cycle, Volume 107, the latest in the Vitamins and Hormones series first published in 1943, and the longest-running serial published by Academic Press, covers the latest updates on hormone action, vitamin action, X-ray crystal structure, physiology and enzyme mechanisms. This latest release includes an overview of the ovarian cycle, a section on ovarian hyperstimulation syndrome, information on androgens and ovarian follicular maturation,

information on peptide inhibitors of human thymidylate synthase to inhibit ovarian cancer cell growth, sections on nodal and luteolysis, neurokinins, dynorphin and pulsatile Lh secretion, Lh receptor expression by Mir12, and gonadotrophin-surge attenuating factor, melatonin and Bmp-6 regulation, amongst other topics. Focuses on the newest aspects of hormone action in connection with diseases Lays the groundwork for the focus of new chemotherapeutic targets Reviews emerging areas in hormone action, cellular regulators and signaling pathways

A Midsummer-night's Dream Sub-Saharan Pub & Traders

For years, the Jesuit labored over a small square of greenish copper hidden in the

Dead Sea Scrolls. What had he found? The message he translated would make the tumultuous history of the Middle East look like a street fight in Hell's Kitchen. This copper square was no less than a one-way ticket through the pass of Megiddo, the place of Armageddon. FOREVER INDEED spans the centuries from the time of the Roman conquest of Judea in the First Century CE to the present. It joins lovers separated by millennia sharing common loves, common thoughts, and common emotions. Hearts and souls race across thousands of years to find each other in a love story that is forever, indeed.

Obi Okonkwo is an idealistic young man who, thanks to the privileges of an

education in Britain, has now returned to Nigeria for a job in the civil service. However in his new role he finds that the way of government seems to be backhanders and corruption. Obi manages to resist the bribes that are offered to him, but when he falls in love with an unsuitable girl - to the disapproval of his parents - he sinks further into emotional and financial turmoil. The lure of easy money becomes harder to refuse, and Obi becomes caught in a trap he cannot escape. Showing a man lost in cultural limbo, and a Nigeria entering a new age of disillusionment, *No Longer at Ease* concludes Achebe's remarkable trilogy charting three generations of an African community under the impact of colonialism, the first two volumes of

which are *Things Fall Apart* and *Arrow of God*.

The monograph "Explicit Biology: A Revision Course" for UTME, POST-UTME and other related examinations written by O.J. Olaoye is a complementary text to the various textbooks that have been written in the subject area. The book has five sections and twenty six chapters on all the biology topics. This book has become timely in view of the poor results that are being witnessed in the UTME examination especially in the sciences and mathematics, biology inclusive. These majorly are due to poor or inadequate access to good study materials. Each chapter has annotated topics followed by copious specimen

questions on some past UTME and POST-UTME examination, for practice and emphasis. The topics in each chapter are adequately treated and with clarity. The illustrations are simple but effective. The author has done a lot of work and put in efforts to come out with a very readable and useful text. It is highly recommended to all the students aspiring to undertake the UTME and POST-UTME examination, in order to improve highly their chances of success. O.A. Sofola B.Sc, M.Sc, M.B.B.S (Lagos), Ph.D (Leeds), FAS (Nig.) Professor of physiology, College of Medicine, University of Lagos Former Vice Chancellor, OOU, Ago- Iwoye. Ogun State.

The Lion and the Jewel Penguin
This book provides two thousand

multiple choice questions on human anatomy and physiology, separated into 40 categories. The answer to each question is accompanied by an explanation. Each category has an introduction to set the scene for the questions to come. However not all possible information is provided within these Introductions, so an Anatomy and Physiology textbook is an indispensable aid to understanding the answers. The questions have been used in examinations for undergraduate introductory courses and as such reflect the focus of these particular courses and are pitched at the level to challenge students that are beginning their training in anatomy and physiology. The questions and answer combinations are to be used both by teachers, to select

questions for their next examinations, and by students, when studying for an upcoming test. Students enrolled in the courses for which these questions were written include nursing, midwifery, paramedic, physiotherapy, occupational therapy, nutrition & dietetics, health sciences and students taking an anatomy and physiology course as an elective.

Explicit Biology - A Revision Course (3rd Edition) BooLogix

Emily Bronte was an English novelist & poet, who is best known for her only novel, "Wuthering Heights: She has written poems also such as - 'Poems by Currer, Ellis and Action Bell', 'A Death Scene', 'To a Wreath of Snow, and lots Many. 'Wuthering Heights' is a highly imaginative work of passion and hate.

Author was interested in mysticism and used to enjoy her solitude outdoors. This novel consists of those elements. It is now considered a classic of English literature. It was published under the pseudonym - "Ellis Bell" The story is full of high creativity and very imaginative. It narrates revenge also. It revolves around the main character, Heathcliff.

Wuthering Heights is his farmhouse. Heathcliff is a young orphan, who was brought by Earnshaw at Wuthering Heights, 30 years ago. Earnshaw loves him (Heathcliff) so much, even neglects his own children. After death of Earnshaw, his elder son Hindley becomes the new master of Wuthering Heights and he allows Heathcliff to stay there only as a servant. Catherine is in love with Heathcliff, but doesn't show

due to her social statue. The story thus seems very interesting and it ends with sights of the ghosts of Catherine and Heathcliff. It consists of many ups and downs Readers will Surely going to enjoy the novel. It's Heartthrobing and it's very difficult to getup without reading the novel - fully.

"A subject collection from Cold Spring Harbor perspectives in biology."

Perspectives on Education and Science Teaching

Among the classroom strategies described in part 2, "Approaches," are

the following: - Uncovering the hidden elements of race, gender, and class through close analysis of the narrative- Teaching the novel from the vantage point of gothic conventions, biographies of Bronte family members, and the debates about the place of the novel in the canon- Familiarizing students with historical and legal documents to reveal social and economic issues of the period like child custody and women's property rights- Comparing film and TV adaptations with one another and with the novel itself

An Analysis of the Relationship Among Intended Curriculum, In-use

Curriculum, and Students' Cognitive Structure Associated with an Ecology Unit

Street life in the slums of Accra is realistically portrayed in this socially-committed, subtle novel about four educated women who are inspired by the plight of a 14-year old girl, Fofo. As the main characters convert their library center into a practical street initiative, the novel invokes the squalor, health risks, and vicious cycles of poverty and violence that drive children to the streets and women to prostitution; and, from which, ultimately, no one in the society is free.
