The owner of the bookshop THE VERB TO BE, is a red-haired giant imprisoned in an enormous body and his solitude. One wet afternoon, driving a vanload of new and second-hand books, ♦tienneVollard knocks down and seriously injures a little girl, ♦va. In the hospital, he meets ♦va's mother, Th♦r♦se, a struggling single parent who lacks maternal instincts and whose dream is to be faraway, alone. Both are haunted by guilt: Th♦r♦se because of her lateness in collecting her daughter, and Vollard because he did not manage to stop his car on time (even if he knows that he could not have avoided -va: indeed she seemed to throw herself in front of the car). Vollard visits ♦va regularly while she is in a coma and reads books to her, while Th♦r♦se spaces her visits out. When ♦va eventually wakes up, she has become mute and is terribly weakened. A few weeks after ♦va has been sent to a rehabilitation centre in the Massif de la Chartreuse, Th♦r♦se gets a job faraway and asks Vollard to visit her daughter on her behalf. Soon, Vollard enjoys their walks in the mountain, where he tells her stories and poems he has memorized and tries to break her out of her mute, impassive shell. However, nothing seems to help "La Petite Chartreuse" - Vollard calls ♦va that way in reference to the monastic order of the Chartreux - to enjoy life again. She becomes weaker everyday to such a point that Vollard decides to find Th♦r♦se and to take her back to her daughter before it is too late . . .

Confronting trauma behind the transnational adoption system—now back in print Many adoptees are required to become

people that they were never meant to be. While transracial adoption tends to be considered benevolent, it often exacts a heavy emotional, cultural, and economic toll on those who directly experience it. *Outsiders Within* is a landmark publication that carefully explores this most intimate aspect of globalization through essays, fiction, poetry, and art. Moving beyond personal narrative, transracially adopted writers from around the world tackle difficult questions about how to survive the racist and ethnocentric worlds they inhabit, what connects the countries relinquishing their children to the countries importing them, why poor families of color have their children removed rather than supported—about who, ultimately, they are. In their inquiry, the contributors unseat conventional understandings of adoption politics, reframing the controversy as a debate that encompasses human rights, peace, and reproductive justice. A Huron born and raised near Quebec City, Georges Sioui is the first to present guidelines for the study of Native history from an Amerindian point of view. He argues that these guidelines must be respected if the self-image and social ethics of Native people are to be understood and preserved and shows that they provide a way to greatly improve the way Native people and more recent immigrants to the Americas perceive each other.

The Strategy included 33 action items to improve intellectual property enforcement, falling into six categories. This report shows how the U.S. Gov't. has implemented the action items and taken steps to improve enforcement, in order to grow the U.S. economy; create jobs and support U.S. exports; promote innovation and the

Moving away from the explicitly political content of his previous novels, Victor Hugo turns to social commentary in *The Man Who Laughs*, an 1869 work that was made into a popular film in the 1920s. The plot deals with a band of miscreants who deliberately deform children to make them more effective beggars, as well as the long-lasting emotional and social damage that this abhorrent practice inflicts upon its victims.

The Gutenberg Galaxy catapulted Marshall McLuhan to fame as a

media theorist and, in time, a new media prognosticator. Fifty years after its initial publication, this landmark text is more significant than ever before. Readers will be amazed by McLuhan's prescience, unmatched by anyone since, predicting as he did the dramatic technological innovations that have fundamentally changed how we communicate. The Gutenberg Galaxy foresaw the networked, compressed 'global village' that would emerge in the late-twentieth and twenty-first centuries — despite having been written when black-and-white television was ubiquitous. This new edition of *The Gutenberg Galaxy* celebrates both the centennial of McLuhan's birth and the fifty-year anniversary of the book's publication. A new interior design updates *The Gutenberg Galaxy* for twenty-first-century readers, while honouring the innovative, avant-garde spirit of the original. This edition also includes new introductory essays that illuminate McLuhan's lasting effect on a variety of scholarly fields and popular culture. A must-read for those who inhabit today's global village, *The Gutenberg Galaxy* is an indispensable road map for our evolving communication landscape.
