The story of Xuanzang, the monk who went from China to India in quest of Buddhist scriptures.

Comparative Journeys University of Chicago Press

One of the U.S. government's leading China experts reveals the hidden strategy fueling that country's rise - and how Americans have been seduced into helping China overtake us as the world's leading superpower. For more than forty years, the United States has played an

indispensable role helping the Chinese government build a booming economy, develop its scientific and military capabilities, and take its place on the world stage, in the belief that China's rise will bring us cooperation, diplomacy, and free trade. But what if the "China Dream" is to replace us, just as America replaced the British Empire, without firing a shot? Based on interviews with Chinese defectors and newly declassified, previously undisclosed national security documents, *The Hundred-Year Marathon* reveals China's secret strategy to supplant the United States as the world's dominant power, and to do so by 2049, the one-hundredth anniversary of the founding of the People's Republic. Michael Pillsbury, a fluent Mandarin speaker who has served in senior national security positions in the

U.S. government since the days of Richard Nixon and Henry Kissinger, draws on his decades of contact with the "hawks" in China's military and intelligence agencies and translates their documents, speeches, and books to show how the teachings of traditional Chinese statecraft underpin their actions. He offers an inside look at how the Chinese really view America and its leaders - as barbarians who will be the architects of their own demise. Pillsbury also explains how the U.S. government has helped - sometimes unwittingly and sometimes deliberately - to make this "China Dream" come true, and he calls for the United States to implement a new, more competitive strategy toward China as it really is, and not as we might wish it to be. *The Hundred-Year Marathon* is a wake-up call as we face the greatest

national security challenge of the twenty-first century.

Throughout his academic career, Anthony C. Yu has employed a comparative approach to literary analysis that pays careful attention to the religious and philosophical elements of Chinese and Western texts. His mastery of both canons remains unmatched in the field, and his immense knowledge of the contexts that gave rise to each tradition supplies the foundations for ideal comparative scholarship. In these essays, Yu explores the overlap between literature and religion in Chinese and Western literature. He opens with a principal method for relating texts to religion and follows with several essays that apply this approach to single texts in discrete traditions: the Greek religion in Prometheus; Christian theology in Milton; ancient Chinese philosophical thought in Laozi; and Chinese religious syncretism in *The Journey to the West*. Yu's essays juxtapose Chinese and Western texts Cratylus next to Xunzi, for example and discuss their relationship to language and subjects, such as liberal Greek education against general education in China. He compares a specific Western text and religion to a specific Chinese text and religion. He considers the Divina Commedia in the context of Catholic theology alongside *The Journey to the West* as it relates to Chinese syncretism, united by the theme of pilgrimage. Yet Yu's focus isn't entirely tied to the classics. He also considers the struggle for human rights in China and how this topic relates to ancient Chinese social thought and modern notions of rights in the West. "In virtually every high-cultural system," Yu writes, "be it the Indic, the Islamic, the Sino-Japanese, or the Judeo Christian, the literary tradition has developed in intimate indeed, often intertwining-relation to religious thought, practice, institution, and symbolism." *Comparative Journeys* is a major step toward unraveling this complexity, revealing through the skilled observation of texts the extraordinary intimacy between two supposedly disparate languages and cultures.

Who Are China's Walking Dead? Former high-ranking Chinese Communist Party (CCP) officials, alongside an army colonel, a judge, a diplomat, a propaganda official, a secret agent, and a CCP role-model student, lift the veil on the Marxist culture that has molded the thoughts and actions of Chinese people for over seventy years. It is this culture that created China's "Walking Dead." Filmmaker and author, Kay Rubacek, weaves together interviews with these Chinese communist insiders with extensive research, and a sense of humor, into a rich narrative that takes you into a strange and dangerous world built on a foundation of lies, money-lust, and zero moral boundaries. Kay Rubacek has 20 years experience producing award-winning, educational programming in print, digital, and video formats. She is currently a producer and director for New York-based Swoop Films and directed Swoop Films' latest award-winning documentary, *Finding Courage*. Kay's family members escaped communism in Russia, China, and the former Czechoslovakia between 1918 and 1986, and she was arrested in China in 2001 for being a human rights advocate. The Little Monkey King's Journey Springer Nature

China's most outrageous character—the magical Monkey who battles a hundred

monsters—returns to the fray in this seventeenth-century sequel to the Buddhist novel *Journey to the West*. In *The Tower of Myriad Mirrors*, he defends his claim to enlightenment against a villain who induces hallucinations that take Monkey into the past, to heaven and hell, and even through a sex change. The villain turns out to be the personification of his own desires, aroused by his penetration of a female adversary's body in *Journey to the West*. *The Tower of Myriad Mirrors* is the only novel of Tung Yüeh (1620–1686), a monk and Confucian scholar. Tung picks up the slapstick of the original tale and overlays it with Buddhist theory and bitter satire of the Ming government's capitulation to the Manchus. After a nod to *Journey's* storyteller format, Tung carries Monkey's quest into an evocation of shifting psychological states rarely found in premodern fiction. An important though relatively unknown link in the development of the Chinese novel, and a window into late Ming intellectual history, *The Tower of Myriad Mirrors* further rewards by being a wonderful read.

China has long been an object of fascination for the French, who celebrated their *annee de la Chine* in 2004. Symptomatic of that fascination are the movements into China made by groups as diverse as the French Jesuit missionaries, who arrived in *L'Empire du Milieu* in the late seventeenth century, and the *Tel Quel* intellectuals, whose will to political pilgrimage took them to the Peoples's Republic in 1974. Symptomatic, too, are the narrative and visual representations of China offered by such as Pierre Loti, Victor Segalen, Paul Claudel, Michel Leiris, Simone de Beauvoir, Andre Malraux, Henri Cartier-Bresson, and Marc Riboud. In this penetrating study, Alex Hughes explores models of intercultural encounter between France and China elaborated in the modern French cultural arena. Locating forms of bodily experience as critical to that encounter, she reflects on its forms and foundations.

2020 Gourmand Award in Spirits Gold Medal winner in the Independent Book Publishers Awards China is one of the world's leading producers and consumers of liquor, with alcohol infusing all aspects of its culture, from religion and literature to business and warfare. Yet to the outside world, China's most famous spirit, baijiu, remains a mystery. This is about to change, as baijiu is now being served in cocktail bars beyond its borders. Drunk in China follows Derek Sandhaus's journey of discovery into the world's oldest drinking culture. He travels throughout the country and around the globe to meet with distillers, brewers, snake-oil salesmen, archaeologists, and ordinary drinkers. He examines the many ways in which alcohol has shaped Chinese society and its rituals. He visits production floors, karaoke parlors, hotpot joints, and speakeasies. Along the way he uncovers a tradition spanning more than nine thousand years and explores how recent economic and political developments have conspired to push Chinese alcohol beyond the nation's borders for the first time. As Chinese society becomes increasingly international, its drinking culture must also adapt to the times. Can the West also adapt and clink glasses with China? Read *Drunk in China* and find out.

Anthony C. Yu's celebrated translation of *The Journey to the West* reinvigorated one of Chinese literature's most beloved classics for English-speaking audiences when it first appeared thirty years ago. Yu's abridgment of his four-volume translation, *The Monkey and the Monk*, finally distills the epic novel's most exciting and meaningful episodes without taking anything away from their true spirit. These fantastic episodes recount the adventures of Xuanzang, a seventh-century monk who became one of China's most illustrious religious heroes after traveling for sixteen years in search of Buddhist scriptures. Powerfully combining religious allegory with humor, fantasy, and satire, accounts of Xuanzang's journey were passed down for a millennium before culminating in the sixteenth century with *The Journey to the West*. Now, readers of *The Monkey and the Monk* can experience the full force of his lengthy quest as he

travels to India with four animal disciples, most significant among them a guardian-monkey known as "the Great Sage, Equal to Heaven." Moreover, in its newly streamlined form, this acclaimed translation of a seminal work of world literature is sure to attract an entirely new following of students and fans. "A new translation of a major literary text which totally supersedes the best existing version. . . . It establishes beyond contention the position of *The Journey to the West* in world literature, while at the same time throwing open wide the doors to interpretive study on the part of the English audience."—*Modern Language Notes*, on the unabridged translation

This book covers the whole system of Socialism with Chinese Characteristics, dealing with Deng Xiaoping's theory, the socialist market economy, a moderately well-off (Xiaokang) society, China's practice and theory of socialist democracy, human rights, and Xi Jinping's Marxism. In short, the resolute focus is the Reform and Opening-Up. Socialism with Chinese Characteristics is one of the most important global realities today. However, the concept and its practice remain largely misunderstood outside China. This book sets to redress such a lack of knowledge, by making available to non-Chinese speakers the sophisticated debates and conclusions in China concerning socialism with Chinese Characteristics. It presents this material in a way that is both accessible and thorough.

Battered, heartbroken, and yet defiant, Ming partners with a blind clairvoyant known only as the prophet.
