LYNN KAUFMAN

Clause Linking and Clause Hierarchy

John Wiley & Sons

A Book of the Month Club's Crafter's Choice! More than 130 patterns reflect a modern sensibility, with motifs ranging from trendy to vintage and kitschy. All fit into a 6-inch or smaller embroidery hoop, so they're quick projects that can be finished in an evening or weekend.

Dictionnaire soninké-français Princeton University Press

This collective volume explores clause-linkage strategies in a cross-linguistic perspective with greater emphasis on subordination. Part I presents some

theoretical reassessment of syntactic terminologies and distinctive criteria for subordination, as well as typological methods based on sets of variables and statistics allowing cross-linguistic comparability. Part II deals with strategies relating to clause-chaining, conjunctive conjugations, converbial constructions, masdars. Part III centers on the interaction between the syntax, pragmatics, and semantics of clause-linking and subordination, in relation to informational structure, to referential hierarchy, and correlative constructions. Part IV presents insights in the clause-linking and subordinating functions of some T.A.M. markers, verbal inflectional morphology and conjugation systems, which may also interact with informational hierarchy, via

the backgrounding effects and lack of illocutionary force of some aspect and mood forms. The volume is of particular interest to linguists and typologists working on clause-linkage systems and on the interface between syntax, pragmatics, and semantics.

Innovative Numerical Modelling in Geomechanics Springer Science & Business Media

"Discontinuous Dynamical Systems" presents a theory of dynamics and flow switchability in discontinuous dynamical systems, which can be as the mathematical foundation for a new dynamics of dynamical system networks. The book includes a theory for flow barriers and passability to boundaries in discontinuous dynamical systems that will
