SOON TO BE A MAJOR MOTION PICTURE

The stunning Booker Prize-winning novel from the author of *Amnesty* and *Selection Day* that critics have likened to Richard Wright's *Native Son*, *The White Tiger* follows a darkly comic Bangalore driver through the poverty and corruption of modern India's caste society. "This is the authentic voice of the Third World, like you've never heard it before" (John Burdett, *Bangkok 8*). The white tiger of this novel is Balram Halwai, a poor Indian villager whose great ambition leads him to the zenith of Indian business culture, the world of the Bangalore entrepreneur. On the occasion of the president of China's impending trip to Bangalore, Balram writes a letter to him describing his transformation and his experience as driver and servant to a wealthy Indian family, which he thinks exemplifies the contradictions and complications of Indian society. Recalling *The Death of Vishnu* and *Bangkok 8* in ambition, scope, *The White Tiger* is narrative genius with a mischief and personality all its own. Amoral, irreverent, deeply endearing, and utterly contemporary, this novel is an international publishing sensation—and

a startling, provocative debut.

Migration has been a basic fact of Nepali life for centuries. Over the last thirty years, migration from Nepal has increased diaspora communities across the world. In these diverse contexts, to what extent do Nepalis reproduce their culture and pass it on to subsequent generations? How much of diaspora life is a response to social and political concerns derived from the homeland? What aspects of Nepali life and culture change? In this volume twenty-one authors address these issues through eighteen detailed case studies that tackle issues of livelihood, identity and belonging, internal conflict, and religious practice, in the UK, the USA, India, Southeast Asia, the Gulf countries, and Fiji. Throughout the volume, we see how being Nepali outside Nepal enables new categories and new kinds of identity to emerge, whether as Nepali, Gorkhali, or as a member of a particular ethnic, regional, or religious group. The common theme of Global Nepalis is the exploration of continuity, change, and conflict as new practices and identities develop in Nepali diaspora

This book makes recommendations for meeting four major challenges currently facing the United States, including globalization, the information technology revolution, chronic deficits, and unbalanced energy consumption.

America has a huge problem. It faces four major challenges, on which its future depends, and it is failing to meet them. In this book the authors analyze those challenges, globalization, the revolution in information technology, the nation's chronic deficits, and its pattern of energy consumption, and spell out what needs to be done now to rediscover America's power and prowess. They explain how the end of the cold war blinded the nation to the need to address these issues seriously. They show how America's history, when properly understood, provides the key to coping successfully and explain how the paralysis of the U.S. political system and the erosion of key American values have made it impossible to carry out the policies the country needs. This work is both a searching exploration of the American condition today and a rousing manifesto for American renewal.

Captivating story of a young boy's unique journey. Twelve-year-old Ram was born and raised in a small village in Nepal. He's destined to be a village farmer like his father, but he dreams of so much more. Then, a mysterious opportunity in the form of an olive-green Land Rover comes to whisk him away into a new life. Through dedicated service and the gift of education, Ram can become more than he ever thought possible. As he transitions to adulthood, though, he begins to wonder if the path he's on is the right one for him. A voice is telling him to "go home", but he's not sure where home is anymore. The choice he makes can alter the lives of everyone around him, but it's up to him to find out what the right choice really is. Dreams from Nepal is the emotional, powerful story of a twelve-year-old Nepali boy's journey through faith, love, and unbreakable determination to live a better life.

A Sunny Morning Univ of California Press Here is a book as joyous and painful, as mysterious and memorable, as childhood itself. I Know Why the Caged Bird Sings captures the longing of lonely children, the brute insult of bigotry, and the

wonder of words that can make the world right. Maya Angelou's debut memoir is a modern American classic beloved worldwide. Sent by their mother to live with their devout, self-sufficient grandmother in a small Southern town, Maya and her brother, Bailey, endure the ache of abandonment and the prejudice of the local "powhitetrash." At eight years old and back at her mother's side in St. Louis, Maya is attacked by a man many times her age—and has to live with the consequences for a lifetime. Years later, in San Francisco, Maya learns that love for herself, the kindness of others, her own strong spirit, and the ideas of great authors ("I met and fell in love with William Shakespeare") will allow her to be free instead of imprisoned. Poetic and powerful, *I Know Why the Caged Bird Sings* will touch hearts and change minds for as long as people read. "I Know Why the Caged Bird Sings liberates the reader into life simply because Maya Angelou confronts her own life with such a moving wonder, such a luminous dignity."—James Baldwin From the Paperback edition.

Theatre of Nepal and the People Who Make It is the first comprehensive look at Nepali theatre for readers outside of Nepal. Charting Nepali theatre from ancient times to the present and from the metropolis of Kathmandu to far-flung regions, this book highlights the history of formal theatre and connects it to shifting political and social conditions in the country. Sourcing extensive fieldwork, it takes us back stage to meet

individual theatre makers and learn their unique attributes and stories. From these intimate glimpses and the intertwining of political history with theatrical expression, a portrait emerges that conveys the character of Nepalis who, in spite of adversities, continue to dramatize their hopes, fears, principles, and priorities through theatrical means. *Adventures of a Nepali Frog* Arihant Publications India limited

From "a major new talent" come short stories set in modern Nepal, about arranged marriages, forbidden desires, and the universal yearning for human connection (Amitav Ghosh). Set in a city where gods are omnipresent, privacy is elusive, and family defines identity, these are stories of men and women caught between their own needs and the demands of their society and culture. Psychologically rich and astonishingly acute, with "a masterful narrative style" (Ian MacMillan), *Arresting God* in Kathmandu introduces a potent new voice in contemporary fiction.

"Upadhyay brings to readers the flavor of Nepal and its culture in this impressive collection of nine short stories. Like Ha Jin's *Bridegroom*, Upadhyay's stories portray the lives of simple yet psychologically complex characters and reveal much about the universal human condition in us all. . . . Upadhyay's stories leave the reader with much food for thought and will make a good choice for book discussion groups." —Library Journal

Advanced techniques for characterizing thin film growth in situ help to develop improved understanding and faster diagnosis of issues with the process. In situ characterization of thin film growth reviews current and developing techniques for characterizing the growth

of thin films, covering an important gap in research. Part one covers electron diffraction techniques for in situ study of thin film growth, including chapters on topics such as reflection high-energy electron diffraction (RHEED) and inelastic scattering techniques. Part two focuses on photoemission techniques, with chapters covering ultraviolet photoemission spectroscopy (UPS), X-ray photoelectron spectroscopy (XPS) and in situ spectroscopic ellipsometry for characterization of thin film growth. Finally, part three discusses alternative in situ characterization techniques. Chapters focus on topics such as ion beam surface characterization, real time in situ surface monitoring of thin film growth, deposition vapour monitoring and the use of surface x-ray diffraction for studying epitaxial film growth. With its distinguished editors and international team of contributors, *In situ characterization of thin film growth* is a standard reference for materials scientists and engineers in the electronics and photonics industries, as well as all those with an academic research interest in this area. Chapters review electron diffraction techniques, including the methodology for observations and measurements. Discusses the principles and applications of photoemission techniques. Examines alternative in situ characterisation techniques.

There are many Lhasas. One is a grid of uniform boulevards lined with plush hotels, all-night bars, and blue-glass-

fronted offices. Another is a warren of alleyways that surround a seventh-century temple built to pin down a supine demoness. A web of Stalinist, rectangular blocks houses the new nomenklatura. Crumbling mansions, once home to noble ministers, famous lovers, nationalist spies, and covert revolutionaries, now serve as shopping malls and faux-antique hotels. Each embodiment of the city partakes of the others' memories, whispered across time and along the city streets. In this imaginative new work, Robert Barnett offers a powerful and lyrical exploration of a city long idealized, disregarded, or misunderstood by outsiders. Looking to its streets and stone, Robert Barnett presents a searching and unforgettable portrait of Lhasa, its history, and its illegibility. His book not only offers itself as a manual for thinking about contemporary Tibet but also questions our ways of thinking about foreign places. Barnett juxtaposes contemporary accounts of Tibet, architectural observations, and descriptions by foreign observers to describe Lhasa and its current status as both an ancient city and a modern Chinese provincial capital. His narrative reveals how historical layering, popular memory, symbolism, and mythology constitute the story of a city. Besides the ancient Buddhist temples and former picnic gardens of the Tibetan capital, Lhasa describes the urban sprawl, the harsh rectangular structures, and the geometric blue-glass tower blocks that speak of the anxieties of successive regimes intent upon improving on the past. In Barnett's excavation of the city's past, the buildings and the city streets, interwoven with his own recollections of unrest and resistance, recount the story of Tibet's complex transition from

tradition to modernity and its painful

history of foreign encounters and
political experiment.
