AMY FOLEY

A comparative grammar of the Sanskrit, Zend, Greek, Latin, Lithuanian... Faenum Publishing, Limited

When Dead Tongues Speak introduces classicists to the research that linguists, psychologists, and language teachers have conducted over the past thirty years and passes along their most important insights. The essays cover a broad range of topics, including cognitive styles, peer teaching and collaboration, learning disabilities, feminist pedagogy, speaking, and writing. Each contributor addresses a different problem in the learning process based on his or her own teaching experience, and each chapter combines a theoretical overview with practical examples of classroom activities. The book was developed for classroom use in Greek and Latin methodology classes in M.A. and M.A.T. programs. It will also appeal to Latin and Greek language instructors who want to get current with the latest scholarship and pedagogical models.

Easy Latin and Greek Passages for Practice in Unseen Translation, Ed. by J.A. Turner Princeton University Press
Students learn the sources of hundreds of vocabulary words with this new, multi-

year program. Unlike many programs that depend on rote memorization, Vocabulary from Latin and Greek Roots incorporates a variety of techniques to teach students the skills they need to determine the meaning of unfamiliar words, while also expanding sight vocabulary. Vocabulary from Latin and Greek Roots reinforces new words through: a format that capitalizes on word families associative hooks and visuals to jog the memory building language-analysis skillsexercises designed for maximum retention Many vocabulary programs are focused on preparing students for a test from week to week, but Vocabulary from Latin and Greek Roots teaches skills that they can use for a lifetime. Teaches word analysis skills by focusing on root words. Additional notes on word and phrase histories build interest Humorous visual mnemonics reinforce recall. Book Four is recommended for 10th Grade. This is a student classroom edition. Tests and Answer Keys are available through the publisher but are only sold to schools and teachers.

Introduction to the New Testament BRILL
An annotated and illustrated Thucydides reader containing passages from books I-VIII of the Histories with introductory material for all eight books of the Histories, commentary and grammatical notes. This book is a standard text for

any college course in reading Thucydides in Greek. It is also suitable for post-intermediate, secondary school students who want to tackle the works of a popular but challenging author.

Collected Studies in Greek and Latin Scholarship University of Arizona Press First published in 1978, *Reading Greek* has become a best-selling one-year introductory course in ancient Greek for students and adults. It combines the best of modern and traditional language-learning techniques and is used widely in schools, summer schools and universities across the world. It has also been translated into several foreign languages. This volume provides full grammatical support together with numerous exercises at different levels. For the second edition the presentations of grammar have been substantially revised to meet the needs of today's students and the volume has been completely redesigned, with the use of colour. Greek-English and English-Greek vocabularies are provided, as well as a substantial reference grammar and language surveys. The accompanying *Text and Vocabulary* volume contains a narrative adapted entirely from ancient authors in order to encourage students rapidly to develop their reading skills, simultaneously receiving a good introduction to Greek culture.

The Greek and Latin Roots of English Creative Teaching Press The aim of this book is to make the Gospel of John accessible simultaneously to intermediate students of Ancient Greek and Latin. There are lots of resources available for the study of John's gospel, particularly in Greek, but this edition juxtaposes the Greek text to one of its most famous translations: the rendering into Latin by St. Jerome known as the vulgate. The running vocabulary

and grammatical commentary are meant to provide everything necessary to read each page, so that readers can progress through the text, improving their knowledge of Greek and/or Latin while reading one of the key texts of early Christianity. For those who know both Greek and Latin, it will be possible to use one language as a resource to read the other. Meanwhile, the vulgate is a key index of how the Greek text was understood by early Christians in the Latin west. The Gospel of John is a great text for intermediate readers of both Greek and Latin. It is one of our best examples of koine Greek, the lingua franca of the eastern Mediterranean for centuries after the time of Alexander the Great. The sentence structure is very simple and there is a great deal of repetition in vocabulary and syntax. The Latin translation follows the Greek closely, translating word for word as much as possible, so that it is a fascinating exercise in translation.

The Latin & Greek Poems of Samuel Johnson Bloomsbury Publishing Sten Ebbesen has contributed many works in the field of ancient and medieval philosophy over many decades of dedicated research. His style is crisp and lucid and his philosophical penetration and exposition of often difficult concepts and issues is both clear and intellectually impressive. Ashgate is proud to present this three volume set of his collected essays, all of them thoroughly revised and updated. Each volume is thematically arranged. Volume One: *Greek-Latin Philosophical Interaction* explores issues of relevance to the history of logic and semantics, and in particular connections and/or differences between Greek and Latin theory and scholarly procedures, with special emphasis on late antiquity and

the Middle Ages.

An Inquiry Into the Nature and History of Greek and Latin Poetry Bloomsbury Academic

Teaching Vocabulary to Improve Reading Comprehension.

Greek and Latin Roots, eBook Wm. B. Eerdmans Publishing

First written in response to a JACT survey of over 100 schools, and now endorsed by OCR, this textbook has become a standard resource for students in the UK and for readers across the world who are looking for a clear and thorough introduction to the language of the ancient Greeks. Revised throughout and enhanced by coloured artwork and text features, this edition will support the new OCR specification for Classical Greek (first teaching 2016). Part 1 covers the basics and is self-contained, with its own reference section. It covers the main declensions, a range of active tenses and a vocabulary of 250 Greek words to be learned. Pupil confidence is built up by constant consolidation of the material covered. After the preliminaries, each chapter concentrates on stories with one source or subject: Aesop, Homer's Odyssey and Alexander the Great, providing an excellent introduction to Greek culture alongside the language study. Written by a long-time school teacher and examiner, this two-part course is based on experience of what pupils find difficult, concentrating on the essentials and on the understanding of principles in both accidence and syntax: minor irregularities are postponed and subordinated so that the need for rote learning is reduced. It aims to be user-friendly, but also to give pupils a firm foundation for further study.

Reading Greek Cambridge University Press

This volume is a groundbreaking discussion of the role of digital media in research on ancient painting, and a deep reflection on the effectiveness of digital media in opening the field to new audiences. The study of classical art always oscillates between archaeology and classics, between the study of ancient texts and archaeological material. For this reason, it is often difficult to collect all the data, to have access to both types of information on an equal basis. The increasing development of digital collections and databases dedicated to both archaeological material and ancient texts is a direct response to this problem. The book's central theme is the role of the digital humanities, especially digital collection,s such as the Digital Milliet, in the study of ancient Greek and Roman painting. Part 1 focuses on the transition between the original print version of the *Recueil Milliet* and its digital incarnation. Part 2 addresses the application of digital tools to the analysis of ancient art. Part 3 focuses on ancient wall painting. The book will be of interest to scholars working in art history, classics, archaeology, and digital humanities.

Sessional Papers BRILL

As well as such famous works as *London* and *The Vanity of Human Wishes*, both owing much to Juvenal, Samuel Johnson wrote many poems in Latin and several in Greek. He also translated a large batch of epigrams from the Greek Anthology into Latin to while away the sleepless nights of the last winter before he died. His subjects vary from religious themes and the quality of Pembroke College beer, to a motto for a goat that circumnavigated the globe, to his own ill-health. Some pieces are entertaining squibs; others disclose his complex

emotions towards people and places.

Latin Prose Composition: Passages of graduated difficulty for translation into Latin with an introduction on continuous prose

Routledge

This collection of articles presents cutting-edge scholarship in Hippiocratic studies in English from an international range of experts. It pays special attention to the commentary tradition, notably in Syriac and Arabic, and its relevance to the constitution and interpretation of works in the Hippiocratic Corpus.

Easy Latin passages. Key Bolchazy-Carducci Publishers

The story of the woman taken in adultery features a dramatic confrontation between Jesus and the Pharisees over whether the adulteress should be stoned as the law commands. In response, Jesus famously states, "Let him who is without sin be the first to throw a stone at her." To Cast the First Stone traces the history of this provocative story from its first appearance to its enduring presence today. Likely added to the Gospel of John in the third century, the passage is often held up by modern critics as an example of textual corruption by early Christian scribes and editors, yet a judgment of corruption obscures the warm embrace the story actually received. Jennifer Knust and Tommy Wasserman trace the story's incorporation into Gospel books, liturgical practices, storytelling, and art, overturning the mistaken perception that it was either peripheral or suppressed, even in the Greek East. The authors also explore the story's many different meanings. Taken as an illustration of the expansiveness of Christ's mercy, the purported superiority of Christians over Jews, the necessity of

penance, and more, this vivid episode has invited any number of creative receptions. This history reveals as much about the changing priorities of audiences, scribes, editors, and scholars as it does about an "original" text of John. To Cast the First Stone calls attention to significant shifts in Christian book cultures and the enduring impact of oral tradition on the preservation—and destabilization—of scripture.

A Comparative Grammar of the Sanskrit, Zend, Greek, Latin, Lithuanian, Gothic, German and Slavonic Languages Prestwick House Inc

Presents an overview of the development of the English language and examines the formation of words especially from Greek and Latin roots. Also discusses definitions and usage.

A Comparative Grammar of the Sanskrit, Zend, Greek, Latin, Lithuanian, Gothic, German, and Slavonic Languages by Professor F. Bopp Teaching Resources

Provides a variety of activities to help students learn five common Greek and Latin roots and new words formed from them.

Parliamentary Papers Oxford University Press

A bestselling Latin course designed to help mature beginners read classical Latin fluently and intelligently. The Text and Vocabulary presents a series of carefully graded original classical Latin texts, initially adapted but later unadulterated. It accompanies the Grammar and Exercises volume, but could be used as a self-standing beginner's reader.

Vocabulary from Latin And Greek Roots IV Routledge

This volume is a Festschrift in honour of

Francisca Hoogendijk, containing fifty-six editions and re-editions of (Abnormal) Hieratic, Demotic, Greek, Latin and Coptic papyri and ostraca, dating from the twelfth century BCE until the eighth century CE.

Reading Latin Harper Collins

"Latin for the New Millennium, Levels 1 and 2 is a complete introductory course to the Latin language, suitable for both high school and college students, consisting of two volumes, each accompanied by a teacher's manual and students' workbooks. The strategy employed for teaching and learning incorporates the best of both the reading approach and the more abstract grammatical method. The choice of vocabulary in each chapter reflects ancient authors commonly studied for the AP Latin examinations. There are exercises designed for oral use, as well as a substantial core of more conventional exercises in each chapter. The readings, pictures, and supplementary inserts on cultural information illuminate Roman life, civilization, Roman history, and mythology, as well as the continuing use of Latin after antiquity and its vigorous literary tradition in such periods as the Middle Ages and Renaissance. Each chapter also includes derivatives, the influence of Latin vocabulary on English, and selected proverbs or common Latin sayings. Latin for the New Millennium Level 3 builds on the strong foundation of Levels 1 and 2 and provides students an in-depth experience of Caesar, Catullus, Cicero, Horace, Ovid, and Vergil as well as of the Renaissance writer Erasmus. This text provides students an introduction to unadapted Latin literature and builds their literary analysis skills."--adapted from publisher website.

Thucydides Reader Hackett Publishing
Pastors, students, and scholars not in the midst of language coursework often find it difficult to maintain their knowledge of biblical languages like Hebrew, Greek, and Latin. For those looking to do so in a meaningful but manageable way, this devotional offers 365 short daily readings, pairing an Old Testament passage in Hebrew and Greek with a corresponding New Testament passage in Greek and Latin. Lexical notes in English are included as a way of facilitating a comfortable reading experience that will build one's confidence and ability in reading the Hebrew Bible, the Septuagint, the Greek New Testament, and the Latin Vulgate. "Our goal and our purpose for this volume is to keep you in the languages, keep you fed in the Word, and hopefully spark a desire to explore more deeply how the New Testament at its core relies upon the Old Testament Scriptures." — from the introduction

Varieties in Verse Franklin Classics

The classic, single-volume introductory Latin textbook, introduced in 1956 and still the bestselling and most highly regarded textbook of its kind. Wheelock's Latin, sixth edition, revised, has all the features that have made it the best-selling single-volume beginning Latin textbook, many of them revised and expanded: o 40 chapters with grammatical explanations and readings based on ancient Roman authors o Self-tutorial exercises with an answer key for independent study o An extensive English-Latin/ Latin-English vocabulary section o A rich selection of original Latin readings -- unlike other textbooks which contain primarily made-up Latin texts o Etymological aids Also includes maps of the Mediterranean, Italy and the Aegean

area, as well as numerous photographs illustrating aspects of classical culture, mythology, and historical and literary figures presented in the chapter readings. o The leading self-tutorial Latin program. Also great for college and accelerated high school courses. o Wheelock's Latin is the top-selling Latin reference in the US. o Interest and enrolments in Latin have been steadily rising in the U.S. for the past 20 years. One-half million people are currently enrolled in Latin classes, and at least

10,000 teachers, professors and graduate assistants are teaching the language in America.

Greek-Latin Philosophical Interaction
Cambridge University Press

A strong vocabulary is the foundation for reading comprehension. In fact, vocabulary is the foundation of all areas of literacylistening, speaking, reading, and writing. The activities in this resource incorporate all areas of literacy to maximize the transfer of vocabulary into your students' reading comprehension.
