The Mayor will be there. The press will be there. But, as it turns out, Allan will not . . . Escaping (in his slippers) through his bedroom window, into the flowerbed, Allan makes his getaway. And so begins his picaresque and unlikely journey involving criminals, several murders, a suitcase full of cash, and incompetent police. As his escapades unfold, Allan's earlier life is revealed. Trina Gulliver is indisputably the finest ladies' darts player in the world. With an amazing seven consecutive Lakeside Ladies' World Championship titles under her belt, this inspirational woman can lay claim to being the most phenomenal player of all time. But it hasn't always been a victorious check-outs for this Warwickshire girl. Qualifying as a joiner at the age of nineteen, Trina soon set up her own business and had her first taste of making it in what has traditionally been a man's world. Her calm head, keen eye and steady hand proved to be useful skills in this trade - and would prove priceless when stepped up to the oche as a professional player. Always a

lover of the game, Trina held her first 'arrow' at the age of two, and after some success later in the Warwickshire County side she went full-time as a professional player. Without any sponsorship in her first year, she struggled to make ends meet as she drove all over Europe to play. But her determination to get to the top saw her make it to number ten in the world, and she finally hit the bullseye in the form of a sponsor. Twelve months later she was number one - where she remains to this day. Fiercely passionate about her sport, Trina has long been an outspoken critic of the prize money in the women's game compared to the men's, and has done sterling work in helping to raise the profile of the ladies' game. Professional to the core, Trina works as hard as the top male players on

her game, and is a role model to women in the sport. Golden Girl is the story of a woman whose talent, grit and determination saw her realise her dream. Heart-warming and inspirational, this book will appeal to darts lovers and anyone interested in a story of success against the odds.

I was in the middle of my divorce when Adam messaged me. I believe his exact words were, "Hi. I think you're my dad's brother. Would you like to get to know me?" My brother and I had never been close, so I'd only met his adopted son a

few times when he was very young. Instinct told me to ignore the message, and I did. For a few days. It took an exhausting fight with my soon-to-be ex-wife and half a bottle of whiskey for me to change my mind. Adam first became "sort of my nephew." Next, he became the guy who helped me find an apartment in the building next to his. He was a sweet, cheerful young man doing his best to raise his four-year-old daughter, which led to him becoming the guy who wanted to help me patch up my relationship with my own daughter. Then one night as I got ready for bed, I looked across the alleyway to the next building, where I saw him getting ready for bed too. I couldn't look away to save my life. It was the night he also became the guy in the window.

personal experiences with officer-involved shootings: “An enlightening and emotional read from beginning to end.” —Don Mann, New York Times—bestselling author of *Inside SEAL Team Six* There’s a lot of discussion about officer-involved shootings today, but rarely do we hear from the officers themselves who have experienced the reality of them. Through actual interviews with police involved in shooting incidents, this book addresses common myths and misunderstandings about these events. From the authors of the Edgar Award-nominated true crime book *Finding Amy*, *Shots Fired* is a journey “behind the shield” that recounts the experiences of the real human beings behind the badge. It explores true events through their first-person perspectives and takes readers

inside the minds of officers during the actual event. The officers detail the roller coaster of emotions and severe trauma experienced during and after a shooting event. Along with the intimate, in-depth explorations of the incidents themselves, the book touches the aftermath of police-involved shootings—the debriefings, internal and external investigations, and psychological evaluations. It challenges many commonly held assumptions created by poor media coverage, such as the meaning of “unarmed” and why the police can’t just “shoot him in the leg,” creating an understanding that reaches beyond slogans.
