The Prince of Beverly Hills Emerald Group Publishing
Three true crime classics of love, murder, and the mob by a Pulitzer Prize finalist who writes with "honest and gritty realism" (Phoenix Gazette). Award-winning author Joan Barthel uncovers the dark secrets behind some of the strangest cases in the history of American crime in these three captivating works of "first-class journalism" (The New York Times). *A Death in California: When twice-divorced Beverly Hills socialite Hope Masters fell in love with a handsome advertising executive, she thought her life was finally turning around—until she woke up to find a gun in her mouth and her fiancé dead in the next room. The killer was a new acquaintance who'd been visiting the couple's Sierra Nevada ranch. Even more bizarre, however, was what happened at the end of the long, nightmarish weekend in which Masters saw everything she cared about destroyed: She began to fall in love with her tormenter. "Superbly documented, brilliantly written. The suspense will keep readers caught to the very last page" (Ann Rule, bestselling author of The Stranger Beside Me). A Death in Canaan: When eighteen-year-old Peter Reilly arrived home from the Teen Center one night to discover his mother lying naked on the bedroom floor with her throat slashed, local police made him their prime suspect. After eight hours of interrogation and a polygraph test, Reilly confessed. But the townspeople of Canaan, Connecticut, couldn't believe the naïve teenager was capable of such a gruesome crime. With the help of some celebrities, including Mike Nichols and William Styron, the community rallied to the boy's defense. Barthel's "riveting" account of this fascinating and frightening case was a finalist for the Pulitzer Prize (People). Love or Honor: Police officer Chris Anastos was happily married and satisfied with his work on the NYPD's anti-*

crime unit—until he was asked to go undercover to investigate links between the Italian mob and a Greek criminal network in Queens. For five years he moved back and forth between his comfortable home life and a murky, underground world of wise guys, pimps, and thieves. But when he fell in love with the beautiful, raven-haired daughter of a Long Island capo, Anastos faced his gravest threat yet. "For devotees of cop tales and mob lore . . . Tantalizing" (The New York Times Book Review).

Professional Boxing W. W. Norton & Company

America's foremost expert on criminal profiling provides his uniquely gripping analysis of seven of the most notorious murder cases in the history of crime -- from the Whitechapel murders to JonBenet Ramsey -- often contradicting conventional wisdom and legal decisions. Jack the Ripper. Lizzie Borden. The Zodiac Killer. Certain homicide cases maintain an undeniable, almost mystical hold on the public imagination. They touch a nerve deep within us because of the personalities involved, their senseless depravity, the nagging doubts about whether justice was done, or because, in some instances, no suspect has ever been identified or caught. In *The Cases That Haunt Us*, twenty-five-year-FBI-veteran John Douglas, profiling pioneer and master of modern criminal investigative analysis, and author and filmmaker Mark Olshaker, the team behind the bestselling *Mindhunter* series, explore the tantalizing mysteries that both their legions of fans and law enforcement professionals ask about most. Among the questions they tackle: Was Jack the Ripper actually the Duke of Clarence, eldest grandson of Queen Victoria, or perhaps a practicing medical doctor? And did highly placed individuals within Scotland Yard have a good idea of the Ripper's identity, which they never revealed? Douglas and Olshaker create a detailed profile of the killer, and reveal their chief suspect. Was Lizzie Borden truly innocent of the murder of her father and stepmother as the Fall River, Massachusetts, jury decided, or was she the one who took the ax and delivered those infamous "whacks"? Through a minute-by-minute behavioral analysis of the crime, the authors

come to a convincing conclusion. Did Bruno Richard Hauptmann single-handedly kidnap the baby son of Charles and Anne Morrow Lindbergh, the most famous couple in the world, or was he an innocent man caught up and ultimately executed in a relentless rush to judgment in the "crime of the century"? What kind of person could kill six-year-old JonBenet Ramsey on Christmas night in her own home? Douglas was called in on the case shortly after the horrifying murder, and his conclusions are hard-hitting and controversial. Why, in the face of the majority of public, media, and law enforcement opinion, including former FBI colleagues, does Douglas believe that John and Patricia Ramsey did not murder their daughter? And what is the forensic and behavioral evidence he brings to bear to make his claim? Taking a fresh and penetrating look at each case, the authors reexamine and reinterpret accepted facts and victimology using modern profiling and the techniques of criminal analysis developed by Douglas within the FBI. This book deconstructs the evidence and widely held beliefs surrounding each case and rebuilds them -- with fascinating and haunting results.

'Lazere's [book] is heaven-sent and will provide a crucial link in the chain of understanding how conflicts are structured and, most importantly, how they can be rationally addressed - a healthy antidote to the scepticism that has become so pervasive in academic life.' Alan Hausman, Hunter College This innovative book addresses the need for college students to develop critical reading, writing, and thinking skills for self-defence in the contentious arena of American civic rhetoric. In a groundbreaking reconception of composition theory, it presents a comprehensive critical perspective on American public discourse and practical methods for its analysis. Exercises following the text sections and readings help students understand the ideological positions and rhetorical patterns that underlie opposing viewpoints in current controversies - such as the growing inequality of wealth in America and its impact on the finances of college students - as expressed in paired sets of readings from the political left and right. Widely debated issues of whether objectivity is possible and whether there is a liberal or conservative bias in news and entertainment media, as well as in education itself, are foregrounded as topics for rhetorical analysis.

Written by a seasoned professional with over 30 years of experience in law enforcement, *Cold Case Homicides: Practical Investigative Techniques* provides effective and accessible information to those responsible for investigating and resolving previously examined - but still unsolved - cold case homicides. The book merges theory with practice through the use of case histories, photographs, illustrations, and checklists that convey essential, fundamental concepts while providing a strong, practical basis for the investigative process. It combines proven techniques from forensics, psychology, and criminal investigation,

and focuses on technologies that may not have been available at the time of the crime. This guide defines the characteristics of a cold case homicide; details various investigative methods used by law enforcement agencies; explores the actual experiences of detectives in re-opening case files; and presents current technologies such as ViCAP, HITS, and TracKRS used in the identification of cases related to the re-opened case, or its perpetrator. It also highlights technological changes that contribute greatly to law enforcement's abilities to solve cold case homicides such as computerized print technology, the specificity of DNA, and the expanding data banks that enable the linkage of previously unknown suspects to the crimes they committed. Addressing methods particularly valuable to cold cases, *Cold Case Homicides: Practical Investigative Techniques* assists the investigator in being prepared, focused, objective - and successful in obtaining the truth.

Rape Kit Backlogs Popular Press

Screenwriters have always been viewed as Hollywood's stepchildren. Silent-film comedy pioneer Mack Sennett forbade his screenwriters from writing anything down, for fear they'd get inflated ideas about themselves as creative artists. The great midcentury director John Ford was known to answer studio executives' complaints that he was behind schedule by tearing a handful of random pages from his script and tossing them over his shoulder. And Ken Russell was so contemptuous of Paddy Chayefsky's screenplay for *Altered States* that Chayefsky insisted on having his name removed from the credits. Of course, popular impressions aside, screenwriters have been central to moviemaking since the first motion picture audiences got past the sheer novelty of seeing pictures that moved at all. Soon they wanted to know: What happens next? In this truly fresh perspective on the movies, veteran Oscar-winning screenwriter Marc Norman gives us the first comprehensive history of the men and women who have answered that question, from Anita Loos, the highest-paid screenwriter of her day, to Robert Towne, Quentin Tarantino, Charlie Kaufman, and other paradigm-busting talents reimagining movies for the new century. The whole rich story is here: Herman Mankiewicz and the telegram he sent from Hollywood to his friend Ben Hecht in New York: "Millions are to be grabbed out here and your only competition is idiots." The unlikely sojourns of F. Scott Fitzgerald and William Faulkner as

Hollywood screenwriters. The imposition of the Production Code in the early 1930s and the ingenious attempts of screenwriters to outwit the censors. How the script for *Casablanca*, “a disaster from start to finish,” based on what James Agee judged to be “one of the world’s worst plays,” took shape in a chaotic frenzy of writing and rewriting—and how one of the most famous denouements in motion picture history wasn’t scripted until a week after the last scheduled day of shooting—because they had to end the movie somehow. Norman explores the dark days of the Hollywood blacklist that devastated and divided Hollywood’s screenwriting community. He charts the rise of the writer-director in the early 1970s with names like Coppola, Lucas, and Allen and the disaster of Michael Cimino’s *Heaven’s Gate* that led the studios to retake control. He offers priceless portraits of the young William Hurt, Steven Spielberg, and Steven Soderbergh. And he describes the scare of 2005 when new technologies seemed to dry up the audience for movies, and the industry—along with its screenwriters—faced the necessity of reinventing itself as it had done before in the face of sound recording, color, widescreen, television, and other technological revolutions. Impeccably researched, erudite, and filled with unforgettable stories of the too often overlooked, maligned, and abused men and women who devised the ideas that others brought to life in action and words on-screen, this is a unique and engrossing history of the quintessential art form of our time.

As figureheads of the most visible segment of criminal justice, today’s police administrators are forced to tackle challenges never faced by their predecessors. Heightened local and global threats, advanced technologies, and increased demands for procedural transparency require new levels of flexibility, innovative thinking, and the ability to foster and maintain relationships within the community. It is more crucial than ever to recruit and retain capable leaders to guide law enforcement

agencies at this pivotal time in history. Covering areas such as leadership in policing, use of force, and understanding how the law shapes police practice, *Handbook of Police Administration* examines the key topics that must be considered by law enforcement professionals. Recognizing that police leaders need the skills and traits of a politician, accountant, attorney, field lieutenant, and futurist, the authors cover a variety of contemporary issues surrounding police administration and management. Divided into five thematic sections, it considers the legal aspects of overseeing a public sector organization, as well as how research, technology, and training can assist modern police leaders in performing their duties more effectively and efficiently. The book covers problematic issues such as officers accepting gratuities, undercover work, and the time criteria required for promotional consideration. It concludes with a chapter comparing administrative issues in Australia with many of the subjects previously addressed with regard to U.S. protocol. Using a range of perspective, differing viewpoints, and controversial issues, *Handbook of Police Administration* provides a springboard to stimulate discussion at the cutting-edge of debate in the dynamic field of policing.

Walking Shadows dramatically dissects the wild, high-profile battle between newspaper tycoon William Randolph Hearst and famous young actor, director, and filmmaker Orson Welles over Welles’s groundbreaking film *Citizen Kane*. In 1940 and 1941 it became the center of public controversy and scandal, especially in Hollywood where Welles’s own stark honesty and blatant self-confidence heightened the drama. *Citizen Kane* portrayed the ruthless career of an all-powerful magnate bearing (not accidentally) a striking resemblance to Hearst, who immediately tried to kill the picture. John Evangelist Walsh here illuminates the conflict between these two outsize personalities and for the first time brings Hearst’s vengeful anti-Kane campaign to the fore. Walsh provides thorough documentation, supplemental notes, and an extended bibliography.
