Benjamin Constant's Philosophy of Liberalism
 Verso
 The definitive reference work on Augustine that scholars, from all fields of theological study, describe as

"superb" and "indispensable" for students, scholars, libraries, and anyone interested in studying Augustine. While the work provides exhaustive resources on Augustine's own life and his theological and pastoral work, it also provides an exceptional wealth of information about scholarship, past and present on the great theologian. Moreover, it documents the influence of Augustine

on the Catholic Church, the Reformation and on great thinkers and theologians such as Kierkegaard, Luther, Erasmus, and Calvin. Topics range from archeology to martyrdom, from imagination to Augustine's personal friends.

 Worshippers of the Gods tells how the Latin writers who witnessed the political and social rise of Christianity rethought the role of

traditional religion in the empire and city of Rome. In parallel with the empire's legal Christianisation, it traces changing attitudes toward paganism from the last empire-wide persecution of Christians under the Tetrarchy to the removal of state funds from the Roman cults in the early 380s. Influential recent scholarship has seen Christian polemical literature-a

crucial body of evidence for late antique polytheism-as an exercise in Christian identity-making. In response, Worshippers of the Gods argues that Lactantius, Firmicus Maternus, Ambrosiaster, and Ambrose offered substantive critiques of traditional religion shaped to their political circumstances and to the preoccupations of contemporary polytheists. By bringing together this

polemical literature with imperial laws, pagan inscriptions, and the letters and papers of the senator Symmachus, *Worshippers of the Gods* reveals the changing horizons of Roman thought on traditional religion in the fourth century. Through its five interlocking case studies, it shows how key episodes in the Empire's religious history-the Tetrarchic persecution,

Constantine's adoption of Christianity, the altar of Victory affair, and the 'disestablishment' of the Roman cults-shaped contemporary conceptions of polytheism. It also argues that the idea of a unified 'paganism', often seen as a capricious invention, actually arose as a Christian response to the eclectic, philosophical polytheism in vogue at Rome.

An impassioned guide to opera's political dimension. Viva la Liberta! puts politics back into opera, uncovering the political dimension of an art form all too often considered purely aesthetic. Taking us on a tour of 200 years of great opera, from *The Marriage of Figaro* to *Nixon in China*,
Arblaster

reveals opera's full vitality and passion for liberty. *Freedom of Expression* Routledge This challenging volume contains articles by a wide variety of well-known scholars and practitioners, and deals with human rights, international humanitarian law, international criminal law and humanitarian assistance, as well as other areas of international law relating to the protection

of humanity. These are topics to which Flavia Lattanzi, in whose honour the volume is being published, has made an outstanding contribution and to which she has given her determined and unrelenting professional and personal commitment. As a former Professor at the Universities of Pisa, Sassari, Teramo and Roma Tre and as Judge ad litem at the International Tribunal for

Rwanda and the International Tribunal for the Former Yugoslavia, she has adhered constantly to a number of important principles, as reflected in the research contained in this volume. They include the firm conviction that respect for human rights is an indispensable precondition for durable peace; the notion that grave breaches of human rights, including the refusal to

provide assistance to populations in distress, can imply a threat to international peace and security; and that guarantees against human rights violations include the question of the punishment of core crimes under International Law.

Studies in Roman Law

Peeters Publishers Reprint of the original, first published in 1866.

A Handbook of Travel-

talk Martinus Nijhoff Publishers This first work in English to focus on Constant as a political theorist shows that his thinking was molded by the French Revolution of 1789 and by Napoleon's regime. Constant is identified as the first to recognize Bonapartism as a new form of despotism, arising from the theory of popular sovereignty, which is still the basis for modern Fascist and

Communist regimes. His political thought is analyzed within the framework of his philosophy of history, law, ethics, and religion. Originally published in 1980. A UNC Press Enduring Edition -- UNC Press Enduring Editions use the latest in digital technology to make available again books from our distinguished backlist that were previously out of print. These

editions are published unaltered from the original, and are presented in affordable paperback formats, bringing readers both historical and cultural value. *International Law and the Protection of Humanity* UNC Press Books This book examines the criminalisation of denials of genocide and of other mass atrocities in Europe and discusses the implications of protecting institutional historical memory

through criminal law. The analysis highlights the tensions with free speech, investigating the relationship between criminal law and historical memory. The book paves the way for a broader discussion about fake news, 'post-truth' scenarios, and free expression in a digital world. The author underscores the need to protect well-founded factual records from the dangers of

misinformation. Historical denialism and the related jurisprudence represent a key step in exploring this complex field. The book combines an interdisciplinary approach with criminal law methodology. It is primarily aimed at academics, practitioners and others who wish to deepen their understanding of historical denialism, remembrance laws, 'speech crimes' and freedom of expression. Emanuela

Fronza is Senior Research Fellow in Criminal Law and Lecturer in International and European Criminal Law at the School of Law, University of Bologna. She is a Principal Investigator within the EU research consortium Memory Laws in European and Comparative Perspectives funded by HERA (Humanities in the European Research Area). *Catalogue or alphabetical index Oxford University Press* Already more than sixty years Paul Ricoeur enriches the international philosophical patrimony with an astonishing number of highly technical books and enlightening reflections on actual problems and situations. To serve the community of researchers in philosophy I have already published two systematic bibliographies of (and on) Ricoeur in 1985 and 1995. Encouraged by friends and colleagues I present now another updated bibliography as exhaustive as possible. *Catalogue of the London Library* Gregorian Biblical BookShop This Biographical Dictionary provides detailed accounts of the lives, works, influence and reception of thinkers from all the major philosophical schools and traditions of

the twentieth-century. This unique volume covers the lives and careers of thinkers from all areas of philosophy - from analytic philosophy to Zen and from formal logic to aesthetics. All the major figures of philosophy, such as Nietzsche, Wittgenstein and Russell are examined and analysed. The scope of the work is not merely restricted to the major figures in western philosophy but also covers in

depth a significant number of thinkers from the near and far east and from the non-European Hispanic-language communities. The Biographical Dictionary also includes a number of general entries dealing with important schools of philosophy, such as the Vienna Circle, or currents of thought, such as vitalism. These allow the reader to set the individual biographies in

the context of the philosophical history of the period. With entries written by over 100 leading philosophy scholars, the Biographical Dictionary is the most comprehensive survey of twentieth-century thinkers to date. Structure The book is structured alphabetically by philosopher. Each entry is identically structured for ease of access and covers: * nationality * dates and
