 From the reticules of the 18th Century to the mesh bags and chatelaines of the 19th century and from Japanese inro to the contemporary designs of the 20th Century, the history of the handbag is also the social history of the times in which these

exquisite, beautifully designed models were created. Every major couturier in the early 1920s, from Paul Poiret to Chanel and Vionnet to Schiaparelli created handbags to go with their outfits and The Secret History of The Handbag shows these creations accompanied by the fashion illustrations and fashion photographs of the time. Handbag designs were inspired by real women notably Grace Kelly and the famous Kelly bag as well as by events in the real world, such as Schiaparelli's gas mask bag and in more recent times this tie-in with the famous and the photographed has grown every more important. Nowadays a handbag can be the foundation of fashion fortunes and certain designs, such as the Hermes Birkin are as famous in China as they are in the rue de la Paix.

Since its publication in 1990, *Athenaze: An Introduction to Ancient Greek* has helped tens of thousands of students learn classical Greek. Building on the bestselling tradition of previous editions, the long-awaited third edition combines the best features of traditional and modern teaching methods. It provides a unique course of instruction that allows students to read connected Greek narrative right from the beginning and guides them to the point where they can begin reading complete classical texts. James Morwood, editor of the *Oxford Grammar of Classical Greek* and the *Pocket Oxford Classical Greek Dictionary*, brings his expertise and years of teaching experience to this revision. Carefully designed to hold students' interest, the course begins in Book I with a fictional narrative about an Attic farmer's family placed in a precise historical context (432-431 B.C.). This narrative, interwoven with tales from mythology and the Persian Wars, gradually gives way in Book II to adapted passages from Thucydides, Plato, and Herodotus and ultimately to excerpts of the original Greek of Bacchylides, Thucydides, and Aristophanes' *Acharnians*. Essays on relevant aspects of ancient Greek culture and history are also woven throughout.

This book is the first of a new series which will present the proceedings of the newly established Nestlé Nutrition Workshop Series: Clinical & Performance Programme aimed at adult nutrition. Undernutrition is a common phenomenon in elderly people, and malnutrition reaches significant levels in those being in hospital, nursing homes or home care programs. Consequences of malnutrition often go unrecognised owing to the lack of specific validated instruments to assess nutritional status in frail elderly persons. The Mini Nutritional Assessment (MNA) provides a single, rapid assessment of nutritional status in the elderly of different degrees of independence, allowing the prevalence of protein-energy malnutrition to be determined and to evaluate the efficacy of nutritional intervention and strategies. Easy, quick and economical to perform, it enables staff to check the nutritional status of elderly people when they enter hospitals or institutions and to monitor changes occurring during their stay. Moreover, the MNA is predictive of the cost of care and length of stay in hospital. This publication will be of immense assistance to heads of geriatric teaching units, teachers in nutrition, clinicians general practitioners and dieticians, enabling them to better detect, recognise and start treatment of malnutrition in the elderly.

"Wherever I go, I'm asked, 'How do you stay so healthy and young?' Or I'm complimented on how beautiful my skin, hair, and nails look. I always say that the key is positive thoughts and healthy food. For many years, the staple of my diet has been bone broth. My doctors keep pointing out that my blood tests and other health-test results are better than people half my age. I tell them, 'I'm a big, strong, healthy girl!' Then I talk about bone broth. I want everyone to know about it because I believe it is an integral part of my health, energy, and vitality." — Louise Hay
