William Faulkner occupied a unique position as a modern writer. Although famous for his modernist novels and their notorious difficulty, he also wrote extensively for the "culture industry," and the works he produced for it—including short stories, adaptations, and screenplays—bore many of the hallmarks of consumer art. His experiences as a Hollywood screenwriter influenced him in a number of ways, many of them negative, while the films turned out by the "dream factories" in which he labored sporadically inspired both his interest and his contempt. Faulkner also disparaged the popular magazines—though he frequently sold short stories to them. To what extent was Faulkner's deeply ambivalent relationship to—and involvement with—American popular culture reflected in his modernist or "art" fiction? Peter Lurie finds convincing evidence that Faulkner was keenly aware of commercial culture and adapted its formulae, strategies, and in particular, its visual techniques into the language of his novels of the 1930s. Lurie contends that Faulkner's modernism can be best understood in light of his reaction to the popular culture of his day. Using Theodor Adorno's theory about modern cultural production as a framework, Lurie's close readings of *Sanctuary*, *Light in August*, *Absalom! Absalom!*, and *If I Forget Thee, Jerusalem* uncover the cultural history that surrounded and influenced the development of Faulkner's art. Lurie is

particularly interested in the influence of cinema on Faulkner's fiction and especially the visual strategies he both deployed and critiqued. These include the suggestion of cinematic viewing on the part of readers and of characters in each of the novels; the collective and individual acts of voyeurism in *Sanctuary* and *Light in August*; the exposing in *Absalom! Absalom!* and *Light in August* of stereotypical and cinematic patterns of thought about history and race; and the evocation of popular forms like melodrama and the movie screen in *If I Forget Thee, Jerusalem*. Offering innovative readings of these canonical works, this study sheds new light on Faulkner's uniquely American modernism.

Indian Cinema: A Very Short

Introduction Univ of California Press

Introduction to Media Distribution offers a clear, direct and comprehensive overview of the entire film, television and new media distribution business, valuable to both students and professionals. In this book, author Scott Kirkpatrick draws from over a decade of personal experience in the distribution arena to explore what fuels the distribution process, and explains in real-world terms how the business works from beginning to end—not merely what happens to a film or television series after a distributor acquires it, but how distributors develop, pre-sell and broker deals on content before it even exists. Kirkpatrick covers deal structures, release strategies, acquisition approaches, rights sales, international co-productions, tax credits, audience research, global regulatory boards, and even 'behind closed doors' monetization

practices. The book offers: A straightforward, clear and insightful approach to understanding the fundamental basics of how the global distribution marketplace works, and how distribution companies actually operate and create the content they need; An insider's analysis of all levels of the business with an emphasis on the independent scene, the root from where development in the industry grows; A comprehensive overview of how film and television markets and festivals work, and how buyers and sellers actually broker deals in the field; Detailed explanations of how each media right is defined and windowed to maximize potential revenue; A detailed overview of several major international territories, and how each operates within the context of the global media business; Guidance and advice from an industry expert on how one can initiate their professional career in the entertainment industry, applicable to individuals in all roles; A robust appendix containing in-depth studies of legal definitions, material delivery requirements, territory-by-territory financial projections, and more. An accompanying eResource offers template contracts, sample agreements, and further resources for download.

One film out of every five made anywhere on earth comes from India. From its beginnings under colonial rule through to the heights of Bollywood, Indian Cinema has challenged social injustices such as caste, the oppression of Indian women, religious intolerance, rural poverty, and the pressures of life in the burgeoning cities. And yet, the Indian movie industry makes only about five percent of Hollywood's annual revenue. In this Very Short Introduction Ashish Rajadhyaksha delves into the political, social, and economic factors which, over time, have shaped Indian Cinema into a fascinating counterculture. Covering everything from silent cinema through to the digital era, Rajadhyaksha examines how the industry reflects the complexity and variety of Indian society through the dramatic changes of the 20th century, and into the beginnings of the 21st.

The Letters of Jude and Second Peter: An Introduction and Study Guide BRILL

In *Chinese Cinema: Identity, Power, and Globalization*, a variety of scholars explore the history, aesthetics, and politics of Chinese cinema as the Chinese film industry grapples with its place as the second largest film industry in the world. Exploring the various ways that Chinese cinema engages with global politics, market forces, and film cultures, this edited volume places Chinese cinema against an array of contexts informing the contours of Chinese cinema today. The book also demonstrates that Chinese cinema in the global context is informed by the intersections and tensions found in Chinese and world politics, national and international co-productions, the local and global in representing Chineseness, and the lived experiences of social and political movements versus screened politics in Chinese film culture. This work is a pioneer investigation of the topic and will inspire future research by other scholars of film studies. "This edited volume offers a much-needed account of alternative ways of envisioning Chinese cinema in the special context of China and the world. Its vigorous theoretical framework, which puts emphasis on interactions in the context of China and the world, will complement and update publications in related areas." —Yiu-Wai Chu, *The University of Hong Kong*; author of *Main Melody Films: Hong Kong Directors in Mainland China* "Chinese Cinema: Identity, Power, and Globalization offers a collection of studies of modern Chinese films and their global connections, with a contemporary emphasis. Its authors' insightful analyses of films—famous, obscure, and new to the twenty-first-

century screen—elucidate numerous contextual factors relevant for understanding the history and aesthetics of Chinese cinemas." —Christopher Rea, *The University of British Columbia*; author of *Chinese Film Classics, 1922-1949*

Over half a century on, the 1960s continue to generate strong intellectual and emotional responses - both positive and negative - and this is no less true in the arena of film. Making substantial use of new and underexplored archive resources that provide a wealth of information and insight on the period in question, this book offers a fresh

perspective on the major resurgence of creativity and international appeal experienced by British cinema in that dramatic decade. Transformation and Tradition in 1960s British Cinema is the first scholarly volume on this period of British cinema for more than twenty-five years. It provides a major reconsideration of the period by focusing on the central tensions and contradiction between novelty/revolution and continuity/tradition during what remains a highly contentious period of cultural production and consumption.

As a rapidly aging continent, Europe increasingly depends on the successful integration of migrants. Unfortunately, contemporary political and media discourses observe and frequently also support the development of nationalist, eurosceptic and xenophobic reactions to immigration and growing multiethnicity. Confronting this trend, European cinema has developed and disseminated new transcultural and postcolonial alternatives that might help to improve integration and community cohesion in Europe, and this book investigates these alternatives in order to identify examples of good practices that can enhance European stability. While the cinematic spectrum is as wide and open as most notions of Europeanness, the films examined share a fundamental interest in the Other. In this qualitative film analysis approach, particular consideration is given to British, French, German, and Spanish productions, and a comparison of multiethnic conviviality in Chicano cinema.

The Business of Film The Projection Box

"This book, the first scholarly consideration of Weill's complete output

of stage works, is without doubt the most important critical study of the composer's oeuvre to date in any language. Hinton's scholarship is superior and his insights original and illuminating. The product of several decades of engagement with Weill's works, their sources and reception, as well as the secondary literature, the book is a stunning achievement. Brilliantly conceived and executed, it will take its place as one of the cornerstones of Weill studies."—Kim H. Kowalke, University of Rochester and President, Kurt Weill Foundation for Music "In Weill's Musical Theater: Stages of Reform, Stephen Hinton reminds us that Kurt Weill was always a revolutionary. The composer's insistent dedication to a provocative, constantly evolving lyric theater that spoke directly to audiences meant that Weill remained as controversial as he was popular. The celebrity that endeared him to Broadway made him anathema in Berlin. Some sixty years after Weill's death, Hinton is finally able to demonstrate the consistent brilliance, theatrical power, and coherence of a composer who revolutionized every genre he touched (or used) and whose collaborators read as a who's who of twentieth-century theater." —David Savran, author of *Highbrow/Lowdown: Theater, Jazz, and the Making of the New Middle Class* "Stephen Hinton presents us with an image of Weill that is at once monumental yet still alive. A truly Protean figure, Weill is not an easy man to grasp in his totality; Brecht once wrote that a man thrown into water will have to develop webbed feet, and as a refugee from Nazi Germany, Weill had to become a cultural amphibian. But in Weill's Musical Theater we see the composer from every angle: through the

gaze of countless critics and reviewers, through Weill's own eyes, and finally through the filter of Hinton's judicious, focused prose. This account will stand."—Daniel Albright, author of *Untwisting the Serpent: Modernism in Music, Literature, and Other Arts*

Vault Guide to Resumes, Cover Letters & Interviews CRC Press

This Guide surveys the more important historical, socio-cultural, theological, and literary factors we must grapple with in understanding the two letters of Jude and Second Peter, between which there are very strong similarities. It appears that the letter of Jude was almost entirely 'plagiarized' by the letter of Second Peter. George Aichele's main approach is the method of semiotics, examining signifying mechanisms in

each of the texts both independently and when they are read together. In both of the letters, Jesus Christ is called the 'master', with a Greek word that means 'slave-owner', and the authors of both books refer to themselves and other Christians as the slaves of Christ. Furthermore, both writings report situations of paranoid fear within Christian communities of their time as

they picture heretical infiltrators who threaten to pervert and perhaps even destroy the community. In addition to this, in an adventurous excursion, the letter of Jude is read intertextually with the classic science fiction/horror film, *Invasion of the Body Snatchers* (Siegel 1956), in order to explore the dynamics of paranoia.
