Descriptive Catalogue of the Du Simitière Papers in the Library Company of Philadelphia Macmillan

A tale inspired by the early life of Zora Neale Hurston finds the imaginative future author telling fantastical stories about a mythical evil creature until a racially charged murder threatens to shatter the peace in her turn-of-the-century Southern community. A first novel.

This book fills a gap in lexical morphology, especially with reference to analogy in English word-formation. Many studies have focused their interest on the role played by analogy within English inflectional morphology. However, the analogical mechanism also deserves investigation on account of its relevance to neology in English. This volume provides in-depth qualitative analyses and stimulating quantitative findings in this realm.

This story begins with shoes. This story is all for true. This story walks. And walks. And walks. To the blues. Rosa Parks took a stand by keeping her seat on the bus. When she was arrested for it, her supporters protested by refusing to ride. Soon a community of thousands was coming together to help one another get where they needed to go. Some started taxis, some rode bikes, but they all walked and walked. With dogged feet. With dog-tired feet. With boycott feet. With boycott blues. And, after 382 days of walking, they walked Jim Crow right out of town. . . . Andrea Davis Pinkney and Brian Pinkney present a poignant, blues-infused tribute to the men and women of the Montgomery bus boycott, who refused to give up until they got justice.

Church of the SubGeniusThe underground cult bestseller! Essays that redefine the psychogeographical nooks of autonomy. Recipes for poetic terror, anarcho -black magic, post-situ psychotropic surgery, denunciations of spiritual addictions to vapid infotainment cults -- this is the bastard classic, the watermark impressed upon our minds. Where conscience informs praxis, and action infects consciousness, T.A.Z. is beginning to worm its way into above-ground culture. This book offers inspired blasts of writing, from slogans to historical essays, on the need to insert revolutionary happiness into everyday life through poetic action, and celebrating the radical optimism present in outlaw cultures. It should appeal to alternative thinkers and punks everywhere, as it celebrates liberation, love and poetic living. The new edition contains the full text of Chaos: The Broadsheets of Ontological Anarchism, the complete communiques and flyers of the Association fo Ontological Anarchy, the long essay 'The Temporary Autonomous Zone,' and a new preface by the author. "Years before the landmark U.S. Supreme Court ruling *Brown v. Board of Education*, Sylvia Mendez, an eight-year-old girl of Mexican and Puerto Rican heritage, played an instrumental role in *Mendez v. Westminster*, the landmark desegregation case of 1946 in California"--

The tale begins over three-hundred years ago, when the Fair People—the goblins, fairies, dragons, and other fabled and fantastic creatures of a dozen lands—fled the Old World for the New, seeking haven from the ways of Man. With them came their precious jewels: diamonds, rubies, emeralds, pearls... But then the Fair People vanished, taking with them their twelve fabulous treasures. And they remained hidden until now... Across North America, these twelve treasures, over ten-thousand dollars in precious jewels in 1982 dollars, are buried. The key to finding each can be found within the twelve full-color paintings and verses of *THE SECRET*. Are you smart enough? *THE SECRET: A TREASURE HUNT* was published in 1982. The year before publication, the author and publisher Byron Preiss had traveled to 12 locations in the continental U.S. (and possibly Canada) to secretly bury a dozen ceramic casques. Each casque contained a small key that could be redeemed for one of 12 jewels Preiss kept in a safe deposit box in New York. The key to finding the casques was to match one of 12 paintings to one of 12 poetic verses, solve the resulting riddle, and start digging. Since 1982, only two of the 12 casques have been recovered. The first was located in Grant Park, Chicago, in 1984 by a group of students. The second was unearthed in 2004 in Cleveland by two members of the Quest4Treasure forum.

"Slow violence" from climate change, toxic drift, deforestation, oil spills, and the environmental aftermath of war takes place gradually and often invisibly. Rob Nixon focuses on the inattention we have paid to the lethality of many environmental crises, in contrast with the sensational, spectacle-driven messaging that impels public activism today.

Slow Violence and the Environmentalism of the Poor Dundurn
Gentle Nell Trent lives a simple, if solitary life with her doting grandfather in his curiosity shop. Her parents died in poverty and unbeknownst to Nell her grandfather is obsessed with winning her an inheritance through gambling, but is forced to borrow heavily from malicious money-lender Quilp. As their debts mount up Nell and her grandfather are forced to flee London, pursued by the vindictive Quilp and others who seek to exploit them, in Dicken's classic tale of pathos and villainy. 'His characters are marvellous, his insights wonderful... Dickens is the father of magic realism. You don't expect reality but you get something bigger and better' Ruth Rendell 'It could be argued that The Old Curiosity Shop changed the expression of grief in the English-speaking world' Peter Ackroyd

The 1920s is one of the most fascinating decades in American history, when the seeds of modern American life were sown. It was a time of prosperity and recovery from war, when women's roles began to change and advertising and credit made it desirable and easy to acquire a vast array of new products. But there was a dark side of crime and corruption, racial intolerance, hard times for immigrants and farmers, and an impending financial collapse. *The Roaring Twenties: Discover the Era of Prohibition, Flappers, and Jazz* explores all the different aspects of the time, from literature and music to politics, fashion, economics, and invention. To experience one of the most vibrant eras in US history, readers will debate the pros and cons of prohibition, create an advertising campaign for a new product, and analyze and compare events leading to the stock market crashes of 1929 and 2008. *The Roaring Twenties* meets common core state standards in language arts for reading informational text and literary nonfiction and is aligned with Next Generation Science Standards. Guided Reading Levels and Lexile measurements indicate grade level and text complexity.

THE ROARING TWENTIES A&C Black

This extensive reference volume presents the etymological history of thousands of English words. The story of how words

come to be is the story of how humans think, and how we fashion our civilizations. Words can be the product of long and intertwining histories, migrations from other languages, or new coinages of science or slang. This diversity of origins is part of what gives the English language its beauty and power. In *Dictionary of Word Origins*, etymologist Joseph T. Shipley provides a fascinating window into the evolution of modern English, from the onomatopoeic aspect of “abash” to the animalistic origins of “zodiac.”

Less celebrated than their male counterparts, women have been vital contributors to the arts. Works by women of the colonial era represent treasured accomplishments of American culture and still impress us today, centuries after their creation. The breadth of creative expression is as impressive as the women themselves. In *American Colonial Women and Their Art: A Chronological Encyclopedia*, Mary Ellen Snodgrass follows the history of creative expression from the early 1600s to the late 1700s. Drawing upon primary sources—such as letters, diaries, travel notes, and journals—this timeline encompasses a wide variety of artistic accomplishment, such as: Stitchery, quilting, and rug hooking Painting, sculpture, and sketches Essays, poems, and other writings Dance, acting, and oratory Musical composition and performance Individual talents highlighted in this volume include miniature portraits by Mary Roberts, pastel likenesses by Henrietta Dering Johnston, stagecraft by Elizabeth Sampson Sullivan Ashbridge, basketry by Namumpum Weetamoo, dance by Mary Stagg, metalwork by blacksmith Elizabeth Hager Pratt, calligraphy by Anna “Anastasia” Thomas Wüster, city planning by Deborah Dunch Moody, poems and essays by Phillis Wheatley, and fabric design by Anne Pogue McGinty. Featuring appendices that list individuals by skill and by state—as well as a glossary that clarifies the parameters of genres—this volume is essential to the study of Colonial women’s art. Resurrecting the efforts of women to record, adorn, and illustrate the spirit of their times, *American Colonial Women and Their Art* is a valuable resource that will be of interest to students and scholars of gender and

women’s studies, art history, and American history.

The Puppet Show Of Memory Teachers College Press

"This splendid work of scholarship . . . sums up with economy and power all that the written record so far deciphered has to tell about the ancient and complementary civilizations of Babylon and Assyria."—Edward B. Garside, *New York Times Book Review*
Ancient Mesopotamia—the area now called Iraq—has received less attention than ancient Egypt and other long-extinct and more spectacular civilizations. But numerous small clay tablets buried in the desert soil for thousands of years make it possible for us to know more about the people of ancient Mesopotamia than any other land in the early Near East. Professor Oppenheim, who studied these tablets for more than thirty years, used his intimate knowledge of long-dead languages to put together a distinctively personal picture of the Mesopotamians of some three thousand years ago. Following Oppenheim's death, Erica Reiner used the author's outline to complete the revisions he had begun. "To any serious student of Mesopotamian civilization, this is one of the most valuable books ever written."—Leonard Cottrell, *Book Week* "Leo Oppenheim has made a bold, brave, pioneering attempt to present a synthesis of the vast mass of philological and archaeological data that have accumulated over the past hundred years in the field of Assyriological research."—Samuel Noah Kramer, *Archaeology* A. Leo Oppenheim, one of the most distinguished Assyriologists of our time, was editor in charge of the *Assyrian Dictionary of the Oriental Institute* and John A. Wilson Professor of Oriental Studies at the University of Chicago.
