Essays in the Sociology of Language Bentham Science Publishers
 "Akashvani" (English) is a programme journal of ALL INDIA RADIO, it was formerly known as The Indian Listener. It used to serve the listener as a broadsheet of broadcasting, and give listener the useful information in an interesting manner about programmes, who writes them, take part in them and produce them along with photographs of performing artists. It also contains the information of major changes in the policy and service of the organisation. The Indian Listener (fortnightly programme journal of AIR in English) published by The Indian State Broadcasting Service, Bombay, started on 22 december, 1935 and was the successor to the Indian Radio Times in english, which was published beginning in July 16 of 1927. From 22 August, 1937 onwards, it used to published by All India Radio, New Delhi. From 1950, it was turned

into a weekly journal. Later, The Indian listener became "Akashvani" (English) w.e.f. January 5, 1958. It was made fortnightly journal again w.e.f. July 1, 1983. Education is a fundamental human right, yet much of the world's population lives with poor literacy. Due to rapidly growing technology and internet usage, open educational resources (OER) are increasingly being used to help transcend barriers to literacy while also aiding in educational attainment. With tremendous developments in ICTs, the education system of today has been enriched by various OERs. The optimal utilization of opportunities provided by the technological developments presents a profound challenge for education systems and has serious implications involving cost, access, equity, pedagogy, and quality. *Challenges and Opportunities of Open Educational Resources Management* is an essential research publication that explores access to information and societal and economic hurdles that contribute to informational inaccessibility. Highlighting topics such as e-resources, digital libraries, and information management, this book is ideal for librarians, academicians, computer scientists, researchers, policymakers, and students. Moreover, the book will provide insights and support executives concerned with the management of expertise, knowledge, information, and organizational development in different types of work communities and environments.

Reorganization of English in Secondary Schools Taylor & Francis

Originally published in 1922, this book lists Islamic manuscripts preserved in the University Library and College Libraries of Cambridge.

Publisher description

[Studies in Higher Education in England and Scotland](#) Publications Division (India), New Delhi

This reference presents information about quality benchmarks of Indian higher education institute (HEI) accreditation bodies namely, the National Assessment and Accreditation Council (NAAC) and the National Institute Ranking Framework (NIRF). The objective of the book is to enlighten stakeholders working in Indian HEIs on the recently revised accreditation and ranking processes, which are crucial to the career prospects of students. The contributors of each chapter include experienced NAAC assessors and educationalists. The authors present their own experiences in the light of the accreditation process and suggestions for the improvement of rankings in their institutes. Topics such as the student feedback system, student perception on private and public universities, student mentoring system, usage of ICT methods in teaching learning process, and

integration of life skills into curriculum are discussed in this book. The information is presented in a simple, structured manner and is an informative resource for personnel involved in administrative and policy making roles in higher educational settings, with a focus on the Indian higher education system. *The Collegian and Progress of India* Univ of California Press
The Dravidian language family is marked historically by a protracted struggle between Tamil and its aggressively assertive supremacy, and the consequent peripheralizing of other majoritarian languages of the region. This book looks at the development of Telugu — with its unique grammatical and lexical tradition as instrumental in the construction of the concept of the Dravidian language family in 1816, and in the development of comparative linguistics since that time. The author's arguments locate Telugu in multiple matrices: of historical and theoretical Orientalism; the colonial state's interest in native languages; the politics of state patronage; questions of cultural assimilation and divergence; the overbearing presence of Tamil and its literary traditions; and the related inter- and intra-civilizational dialogues. The book thus grapples with the tortured emergence of Telugu — a product of the dynamics of Andhra society, economy, polity and culture influenced and driven by Muslim, Hindu and Western influence. With its richly textured narrative, this book will be of interest to those in the fields of history, sociology, socio-linguistics, colonial studies, and literature, apart from the generally interested reader.
