The Second Edition of *Sociology in Action: Social Problems* is ideal for teachers who want to provide students with an active learning experience that relies less on lecturing and more on discussion, collaboration, self-directed investigation, observation, analysis, and reflection. Maxine P. Atkinson and Kathleen Odell Korgen provide concrete ways to make use of sociological training in the "real" world by considering sociological solutions to a range of social problems and issues facing society today.

In 2015, Nigeria's voters cast out the ruling People's Democratic Party (PDP). Here, Carl LeVan traces the political vulnerability of Africa's largest party in the face of elite bargains that facilitated a democratic transition in 1999. These 'pacts' enabled electoral competition but ultimately undermined the party's coherence. LeVan also crucially examines the four critical barriers to Nigeria's democratic consolidation: the terrorism of Boko Haram in the northeast, threats of Igbo secession in the southeast, lingering ethnic resentments and rebellions in the Niger Delta, and farmer-pastoralist conflicts. While the PDP unsuccessfully stoked fears about the opposition's ability to stop Boko Haram's terrorism, the opposition built a winning electoral

coalition on economic growth, anti-corruption, and electoral integrity. Drawing on extensive interviews with a number of politicians and generals and civilians and voters, he argues that electoral accountability is essential but insufficient for resolving the representational, distributional, and cultural components of these challenges.

The gender-differentiated and more severe impacts of armed conflict upon women and girls are well recognised by the international community, as demonstrated by UN Security Council Resolution (UNSCR) 1325 on Women, Peace and Security and subsequent resolutions. Similarly, the development community has identified gender-differentiated impacts upon women and girls as a result of the effects of climate change. Current research and analysis has reached no consensus as to any causal relationship between climate change and armed conflict, but certain studies suggest an indirect linkage between climate change effects such as food insecurity and armed conflict. Little research has been conducted on the possible compounding effects that armed conflict and climate change might have on at-risk population groups such as women and girls. *Armed Conflict, Women and Climate Change* explores the intersection of these three areas and allows the reader to better understand how military organisations across the world need to be sensitive to these relationships to be most effective in civilian-centric operations in situations of humanitarian relief, peacekeeping and even armed conflict. This book examines strategy and military doctrine from NATO, the UK, US and Australia, and explores key issues such as displacement, food and energy insecurity, and male out-migration as well as current efforts to incorporate gender

considerations in military activities and operations. This innovative book will be of great interest to students and scholars of international relations, international development, international security, sustainability, gender studies and law.

Reporting on migrants and refugees Routledge

9/11 has been described as an "absolute event" that radically changed the course of history. It reinforced the opposition between Christian and Muslim worlds and led to the declaration of a unilateral war against a global network of terrorists that broke up the classical definition of war as a war between nation states. Yet, 9/11 also created responses in parts of the world that were not directly involved in the unfolding "war on terror." In Africa, local conflicts were re-mapped into an emerging new geography of anger that also reflects the effects of marginalization in a globalized world. The essays of this volume explore local remediations of 9/11 in African popular culture (posters, photographs, videos, cartoons, etc.) and visual arts. They give evidence of the fundamental ambivalence towards the event of 9/11 and provide insights into the various ways distant conflicts are translated into intense proximities. The inspirational story of a pregnant young Nigerian woman and the horrors she endured to save her unborn child when she was kidnapped by Boko Haram. When she was nineteen, Patience Ibrahim's first husband was murdered by Boko Haram. She fled to the safety of her village and remarried several months later. Having prayed for a child for years, Patience is overjoyed when she discovers she is pregnant. But her joy is short-lived: Boko Haram soldiers are at her door. Brutally abducted and forced to convert to Islam, she lives in constant terror of what her kidnappers have in store for her. She finds herself alone in the world and fears her life is over. For two months, Patience hides her pregnancy while facing the brutalities meted out by Boko Haram. By the sheer force of her determination to protect her baby, she and her child are able to survive. Now, she has entrusted journalist Andrea C. Hoffmann with her story, a powerful first-person account of Boko Haram's atrocities in Nigeria and Cameroon. One of the first testimonies on the terrorist group's war crimes in Western Africa, *A Gift from Darkness* poignantly shows the human toll of a crisis that demands attention.

A Gift from Darkness Cambridge University Press

Over the past two decades, the rapid emergence and spread of both local and transnational extremist organisations has become a primary source of insecurity in Africa. Extremist organisations represent the fluid and variable nature of conflict systems today and are at the heart of some of Africa's most enduring conflicts. Moreover, the inability of African states to contain the threat of extremism, or of heavy-handed security responses, has led to the loss of thousands of lives, displaced millions, and deeply impacted the continent's democratisation and development goals. This is the second anthology published by Good Governance Africa (GGA) on the topic of extremism and political violence in Africa. Extremisms in Africa, one of the first anthologies of its kind on this topic to be authored - and published - on the African continent, provided an account of how extremist groups arose in Africa and the various ways in which they have harnessed their global agendas to local conflict dynamics and structural challenges, enabling them to exploit the grievances of individuals and communities for their cause. This anthology, *Extremisms in Africa Volume 2*, looks forward, giving special attention to the ways in which emergent trends, global geopolitics and conflict dynamics merge to impact upon the African continent. To this end, we have sought to engage diverse topics ranging from ecological concerns surrounding climate change and migration, the implications of such human movement for modern-day trafficking and slavery, and the roles of women and youth. State responses to extremisms on the African continent are not uniform; the capacity of individual states to detect/identify, police, investigate and prosecute is highly variable. At the most fundamental level, extremisms are ripe to arise in contexts where governments are failing, especially when democracy is on the wane. This anthology identifies some of the most pressing challenges in addressing extremisms today and provides chapters that could offer actionable policy insights to governments and civil society. Given the nature of Africa's geopolitical landscape, state and security services alone cannot prevent extremism. It will take a 'whole-of-society' approach, where government, civil society, academia, communities, families, and individuals collaborate to better understand the local dynamics of recruitment and radicalisation and develop context-specific strategies in response. This anthology will hopefully provide practitioners with improved insight into some of the key challenges and potential solutions in preventing extremism, while also being of interest to the general reader.

The Ongoing Struggle Against Boko Haram Academic Press

Defining Terrorism is a challenge, several efforts at making meanings out of what pushes men to unleash terror on fellow men always ended in creating more questions than answers. Boko Haram Islamic sect in Nigeria has since 2002 torment the people of Northern Nigeria and by 2010 became the most challenging security issue in Nigeria necessitating a state of emergency declaration in the area. Four years after, the end of hostilities in this area is not in sight and the casualties continue to rise giving rooms for questioning the policy and operation in the Sahel. Haram is the number one security challenge in Nigeria War on Terror. The Challenge to security of lives and properties in the Northeast region of the country has been on for over 4 years, with over 5,000 death and the end of this reign of terror not in sight.

This book examines violence against women in Africa and criminal justice from the perspective of African scholars, practitioners and experts. As a global and long-standing issue, violence against women is gaining public visibility across the African continent with some states announcing a national

crisis warranting immediate redress. At the global level, the elimination of all forms of violence against all women and girls forms a key part of United Nations Sustainable Development Goal 5: Gender Equality. Split across two volumes, these books present a comprehensive analysis of the latest research and theories, principles and practices of criminal justice systems, criminal justice accountability mechanisms, and the key challenges women face in their quest for justice on the African continent. This volume (II) focusses on sexual violence and vulnerable women's access to justice in Africa. Volume I focusses on legislation and its impact, the limitations of criminal justice responses, and the cultural and social norms regarding access to justice. Together, they adopt a comparative approach that highlight gaps and good practices to provide a rich source of authoritative information for promoting an intra-African dialogue and cross-fertilization of ideas across the different criminal justice traditions in Africa. Both volumes seek to advance discussions on eliminating violence against women in Africa and speak to those interested in criminal justice, violence, gender studies and African legal studies.

Criminology: The Core Routledge

Since it erupted onto the world stage in 2009, people have asked, what is Boko Haram, and what does it stand for? Is there a coherent vision or set of beliefs behind it? Despite the growing literature about the group, few if any attempts have been made to answer these questions, even though Boko Haram is but the latest in a long line of millenarian Muslim reform groups to emerge in Northern Nigeria over the last two centuries. The Boko Haram Reader offers an unprecedented collection of essential texts, documents, videos, audio, and nashids (martial hymns), translated into English from Hausa, Arabic and Kanuri, tracing the group's origins, history, and evolution. Its editors, two Nigerian scholars, reveal how Boko Haram's leaders manipulate Islamic theology for the legitimisation, radicalization, indoctrination and dissemination of their ideas across West Africa. Mandatory reading for anyone wishing to grasp the underpinnings of Boko Haram's insurgency, particularly how the group strives to delegitimize its rivals and establish its beliefs as a dominant strand of Islamic thought in West Africa's religious marketplace.

In the middle of the night on April 14, 2014, terrorist group, Boko Haram, abducted 276 girls from their secondary school's dormitory in the town of Chibok, Northeast Nigeria. Over the following days, 57 girls managed to escape. For two years, 219 girls remained missing. During the last four months of 2015, in the heat of the worst of the insurgency, Aisha Muhammed-Oyebode, the CEO of the Murtala Muhammed Foundation (MMF) in Nigeria embarked on a project to interview, photograph, and document the accounts of the parents of each of the missing girls. The MMF's team managed to meet the relatives of 201 of them. In May 2016, the first of the missing students, Aisha Nkeki Ali, was found by the Nigerian military. In the intervening years, 107 more have made it home: four by Nigerian military/ para-military intervention, twenty-one by negotiated release in October 2016, and eighty-two more in May 2017; with both deals brokered by Switzerland and the International Committee of the Red Cross. Increasingly complicated negotiations between the Nigerian Government and Boko Haram continue for the 112 girls who remain captive. For the families of the girls, and for the Chibok community, the trauma of this experience remains a daily reality. Words have a power that numbers can never have. *The Stolen Daughters of Chibok* is a collection of supplemental essays by acclaimed experts and interviews and photographs of 152 of the 210 Chibok families that were interviewed and photographed. It is a tribute to the girls, which aims to capture their lives before the abduction and to highlight how their families have struggled to cope afterward.

This authoritative update presents current findings on—and clinically and ethically sound responses to—the epidemic of sexual assault in the military. It examines in powerful detail how military culture enables a pervasive subculture of sexual violence, from consistently devaluing women to blaming victims and denying them justice. The author's dual attachment/trauma theory lens attends to a wide range of outcomes such as unit members closing ranks against survivors and the continuing impact of assault trauma on veterans' lives. And the book's second half critiques standard forms of treating military sexual trauma in favor of individualized therapy addressing the physical, psychological, and neurological aspects of trauma and recovery. This important volume covers:

- Theory and history of sexual violence as a weapon of war.
- Legal and health considerations in the aftermath of military sexual assault.
- Critical distinctions between military and civilian legal response to sexual assault.
- Variations in symptomology among survivors.
- Specific barriers to services for male and LGBT survivors.
- New and emerging treatment options for military sexual trauma/PTSD.

This Second Edition of *Understanding and Treating Military Sexual Trauma* follows its predecessor as an essential reference on its subject for mental health clinicians treating sexual trauma in the military as well as trauma researchers, sociologists, women's health practitioners, and university students whose focus is women's studies, public policy, public health, social work, psychology, sociology, or political science.

Violence Against Women and Criminal Justice in Africa: Volume II SAGE Publications

An insurgency in Nigeria by the Islamist extremist group Boko Haram has left thousands dead, shaken Africa's biggest country and worried the world. Yet it remains a mysterious - almost unknowable - organisation. rough exhaustive on-the-ground reporting, Mike Smith takes readers inside the conflict and provides the first in-depth account of the violence and unrest. He traces Boko Haram from its beginnings as a small Islamist sect in Nigeria's remote north-east, led by a baby-faced but charismatic preacher, to its transformation into a hydra-headed entity, deploying suicide bombers and abducting schoolgirls. Much of the book is told through the eyes of Nigerians who have found themselves caught between frightening insurgents and security forces accused of horrifying brutality. It includes the voices of a forgotten police officer left paralysed by an attack, women whose husbands have been murdered and a sword-wielding vigilante using charms to fend off insurgent bullets. It journeys through the sleaze and corruption that has robbed Africa's biggest oil producer of its potential, making it such fertile ground for extremism. Along the way it questions whether there can be any end to the violence and the ways in which this might be achieved. Interspersed with history, this book delves into the roots of this unholy war being waged by a virtually unknown organisation, which is set to shape the destiny of Africa's biggest economy and most populous state - and perhaps affect the future of Africa.
