“The Unraveling of Cassidy Holmes is a page-turning peek inside the glamour and brutality of life as a pop star. Sloan takes us on a wild ride through the world of music video shoots, expensive hotels, and arena tours—showing us the darkness that threatens just below the surface.” —Taylor Jenkins Reid, *New York Times* bestselling author of *Daisy Jones and The Six* “I didn't know I was waiting for a smart, literary writer to craft a novel about the rise and fall of a teen star akin to Britney Spears until I discovered *The Unraveling of Cassidy Holmes*. A witty, bright, hilarious—and at times devastating—read. I loved it.” —Amanda Eyre Ward, *New York Times* bestselling author of *The Jetsetters* *Cassidy Holmes* isn't just a celebrity. She is “Sassy Gloss,” the fourth member of the hottest pop group America has ever seen. Hotter than Britney dancing with a snake, hotter than Christina getting dirty, *Gloss* was the pop act that everyone idolized. Fans couldn't get enough of them, their

music, and the drama that followed them like moths to a flame—until the group's sudden implosion in 2002. And at the center of it all was Sassy Cassy, the Texan with a signature smirk that had everyone falling for her. But now she's dead. Suicide. The world is reeling from this unexpected news, but no one is more shocked than the three remaining Glossies. Fifteen years ago, Rose, Merry, and Yumi had been the closest to Cassidy, and this loss is hitting them hard. Before the group split, they each had a special bond with Cassidy—truths they told, secrets they shared. But after years apart, each of them is wondering: what could they have done? Told in multiple perspectives—including Cassidy herself—and different timelines, this is a behind-the-scenes look into the rise and fall of a pop icon, and a penetrating examination of the dark side of celebrity and the industry that profits from it.

Improve Your English: English in the Workplace Andrews McMeel Publishing Using one of the most famous works in classical music—Beethoven's Fifth Symphony—here is the

perfect way to introduce a young child to the world of classical music. This charming and interactive picture book with its panel of 19 sound buttons is like a ticket to a concert hall, taking readers on a journey from the exciting first moment when the musicians begin tuning up to the end of the first movement (attention newcomers: don't clap yet!). At each step of the way, readers learn the basics of classical music and the orchestra: What is a conductor? What is a symphony? Who was Beethoven? The different aspects of music: melody, harmony, tempo, theme. And the families of instruments—strings, woodwinds, brass, and percussion. But the best part is that every critical idea is illustrated in gorgeous sound. The sound panel allows readers to hear the different parts of the symphony and voices of the music—the famous beginning of the Fifth, what a clarinet sounds like, the difference between a violin and a viola, what a melody is, and what harmony is. Kids will want to match their voices to the A note that tunes the orchestra, dance to the rhythmic passages—and, of course,

sing along to da-da-da-daah!

Greg Cage was born to protect. While growing up, he was his mother and sister's shield against the world... until he failed. For the last decade, he has carried that guilt and need for vengeance around... until it was stripped from him. Now, with his best friend getting married and no longer needing his protection, he is even more lost, completely adrift, and desperate for some control. All he has ever known was how to protect: his family, his friends, and his country. Can he go against everything he has ever known, and give up that control? Melissa Larson will never let anyone hold the reins in her life. She has been the rock in her

family for more years than she can remember, and the fight to keep them together is her main priority right now. She has always been fiercely independent and proud. The last thing she will ever do is ask for someone else's help. But when that choice is out of her control, forcing her to rely on others to save her and her family, and pick up the pieces that are left, will she be able to let someone else be her strength? The second Greg locks eyes with Meli, he knows that she is someone he needs. Someone he craves. Meli knew the second she met Greg that he would be nothing but trouble and heartache. Her life takes an unexpected turn, and that bitch Fate is back to wreak more havoc on another member of the Corps family. All hell breaks loose, leaving Greg no choice but to call in a favor. He hooks back up with his old friend Braxxon Breaker from the Breakneck MC. Together, they make sure that nothing threatens anyone Greg loves again.

Penumbra's 24-Hour Bookstore, comes Sourdough, "a perfect parable for our times" (San Francisco Magazine): a delicious and funny novel about an overworked and under-socialized software engineer discovering a calling and a community as a baker. Named One of the Best Books of the Year by NPR, the San Francisco Chronicle, and Southern Living Lois Clary is a software engineer at General Dexterity, a San Francisco robotics company with world-changing ambitions. She codes all day and collapses at night, her human contact limited to the two brothers who run the neighborhood hole-in-the-wall from which she orders dinner every evening. Then, disaster! Visa issues. The brothers quickly close up shop. But they have one last delivery for Lois: their culture, the sourdough starter used to bake their bread. She must keep it alive, they tell her—feed it daily, play it music, and learn to bake with it. Lois is no baker, but she could use a roommate, even if it is a needy colony of microorganisms. Soon, not only is she eating her own homemade bread, she's providing loaves to

the General Dexterity cafeteria every day. Then the company chef urges her to take her product to the farmer's market—and a whole new world opens up.

Art about glaciers, queer

relationships, political

anxiety, and the meaning

of Blackness in open

space—Borealis is a

shapeshifting logbook of

Aisha Sabatini Sloan's

experiences moving

through the Alaskan

outdoors. In Borealis,

Aisha Sabatini Sloan

observes shorelines,

mountains, bald eagles,

and Black fellow travelers while feeling menaced by the specter of nature writing. She considers the meaning of open spaces versus enclosed ones and maps out the web of queer relationships that connect her to this quaint Alaskan town.

Triangulating the landscapes she moves through with glacial backdrops in the work of Black conceptual artists and writers, Sabatini Sloan complicates tropes of Alaska to suggest that the excitement,

exploration, and possibility of myth-making

can also be twinned by

isolation, anxiety, and

boredom. Borealis is the

first book commissioned

for the Spatial Species

series, edited by Youmna

Chlala and Ken Chen. The

series investigates the

ways we activate space

through language. In the

tradition of Georges

Perec's *An Attempt at*

Exhausting a Place in

Paris, *Spatial Species*

titles are pocket-sized

editions, each keenly

focused on place. Instead

of tourist spots and public

squares, we encounter

unmarked, noncanonical

spaces: edges, alleyways,

diasporic traces. Such

intimate journeying

requires experiments in

language and genre,

moving travelogue, fiction, or memoir into something closer to eating, drinking, and dreaming.

First published in 1958 and then turned into a film of the same name in 1959 featuring Troy Donahue, Sandra Dee, Dorothy McGuire and Richard Egan, this classic romance is available for the first time in ebook format. Ken and Sylvia met twice at the Summer Place. The first summer they were in their teens. Their intimacy was without love. They'd met too early. The second summer they shouldn't have fallen in love...and did. They were in their thirties--married--each with children. Had they met too late? Ken and Sylvia decided to break two marriages to make the one they wanted together. They almost broke a third that hadn't even started yet. Because Ken's daughter and Sylvia's son met at the Summer Place. They were in their teens. For them, it was neither too early nor too late. This novel is about how marriages are made on earth--and unmade. It is about the price people pay for changing their minds

about love.

Life Choices Macmillan

Through readings of 15 life-history interviews, this book creates a framework for the interpretation of dilemmas and decisions. As each individual recounts a specific instance when a life choice was necessary, the supporting analysis reveals the framework that triggered the sense that a turning point had been reached. The author's basic premise is that common sense and mainstream psychology fail to enlighten us about what is actually involved in major life choices. He argues that individuals tend to make decisions that are not in their best interests and that these decisions tend to reinforce the sociocultural structures that were instrumental in the creation of their

dilemmas.

Black Irish Martingale
New York Times and USA TODAY bestselling author Harper Sloan returns with a passionate and breathless romance about the sparks that ignite when a cautious cowboy and a once-scorned woman open up to each other in the third installment of the *Coming Home* series. As the eldest Davis, Clayton has always tried to lead by example. He takes his job as head of the family businesses seriously, making sure the farm and auto shop are running smoothly—along with keeping an eye on his brother and sister. For him, there's a time and place to let go of the control he holds with an iron grip. And with the way he grew up, coupled with disastrous end to his last relationship, he's just fine with his quiet, solitary

life. Most of the time.

What he hadn't counted on was cute, quirky, shy bookstore owner, Caroline Michaels. She's the proverbial woman next door—well, the next town over, that is. Caroline hasn't lived an easy life, but after escaping an abusive ex, she's finally living it for herself. The last thing she ever expected was a one-night stand with Clay Davis, a night she can't stop thinking about. So when she falls on hard times and Clay comes out of nowhere to her rescue, she realizes just how impossible it'll be to stay away from him. Now all she has to do is convince him to live a little... Will Clay be able to give up the reins and finally settle down? And, more importantly, will Caroline muster enough courage to lasso him up?
