Notre-Dame Michelin Travel Publications

The profound emotion felt around the world upon seeing images of Notre-Dame in flames opens up a series of

questions: Why was everyone so deeply moved? Why does Notre-Dame so clearly crystallise what our civilisation is about? What makes 'Our Lady of Paris' the soul of a nation and a symbol of human achievement? What is it that speaks so directly to us today? In answer, Agnès Poirier turns to the defining moments in Notre-Dame's history. Beginning with the laying of the corner stone in 1163, she recounts the conversion of Henri IV to Catholicism, the coronation of Napoleon, Victor Hugo's nineteenth-century campaign to preserve the cathedral, Baron Haussmann's clearing of the streets in front of it, the Liberation

in 1944, the 1950s film of *The Hunchback of Notre-Dame*, starring Gina Lollobrigida and Anthony Quinn, and the state funeral of Charles de Gaulle, before returning to the present. The conflict over Notre-Dame's reconstruction promises to be fierce. Nothing short of a cultural war is already brewing between the wise and the daring, the sincere and the opportunist, historians and militants, the devout and secularists. It is here that Poirier reveals the deep malaise – gilet jaunes and all – at the heart of the France.

The winners of the Nobel Prize show how economics, when done right, can help us solve the thorniest social and political

problems of our day. Figuring out how to deal with today's critical economic problems is perhaps the great challenge of our time. Much greater than space travel or perhaps even the next revolutionary medical breakthrough, what is at stake is the whole idea of the good life as we have known it.

Immigration and inequality, globalization and technological disruption, slowing growth and accelerating climate change—these are sources of great anxiety across the world, from New Delhi and Dakar to Paris and Washington, DC. The resources to address these challenges are there--what we lack are ideas that will help us jump the wall of disagreement and distrust that divides us. If we succeed, history will remember our era with gratitude; if we fail, the

potential losses are incalculable. In this revolutionary book, renowned MIT economists Abhijit V. Banerjee and Esther Duflo take on this challenge, building on cutting-edge research in economics explained with lucidity and grace. Original, provocative, and urgent, *Good Economics for Hard Times* makes a persuasive case for an intelligent interventionism and a society built on compassion and respect. It is an extraordinary achievement, one that shines a light to help us appreciate and understand our precariously balanced world.

A gargantuan, mind-altering comedy about the Pursuit of Happiness in

America Set in an addicts' halfway house and a tennis academy, and featuring the most endearingly screwed-up family to come along in recent fiction, *Infinite Jest* explores essential questions about what entertainment is and why it has come to so dominate our lives; about how our desire for entertainment affects our need to connect with other people; and about what the pleasures we choose say about who we are. Equal parts philosophical quest and screwball

comedy, Infinite Jest bends every rule of fiction without sacrificing for a moment its own entertainment value. It is an exuberant, uniquely American exploration of the passions that make us human - and one of those rare books that renew the idea of what a novel can do. "The next step in fiction...Edgy, accurate, and darkly witty...Think Beckett, think Pynchon, think Gaddis. Think." --Sven Birkerts, *The Atlantic España & Portugal : Strassen- und Reiseatlas* Michelin Travel Publications

A triumphant tale of a young woman and her difficult childhood, *The Glass Castle* is a remarkable memoir of resilience, redemption, and a revelatory look into a family at once deeply dysfunctional and wonderfully vibrant. Jeannette Walls was the second of four children raised by

anti-institutional parents in a household of extremes.
