ORLANDO KIDD

A Quiet American Brookings Institution Press

An authoritative account of the 1916 revolt in Arabia and T. E. Lawrence's lesser-known role in key events draws on previously unavailable archival material to offer insight into the uprising's complexities and contributions to modern Middle East conflicts. Reprint.

[The Secret War for the Middle East](#) Vintage
 It can be argued that the Middle East during the World War II has been regarded as that conflict's most overlooked theater of operations. Though the threat of direct Axis invasion never materialized beyond the Egyptian Western Desert with Rommel's Afrika Korps, this did not limit

the Axis from probing the Middle East and cultivating potential collaborators and sympathizers. These actions left an indelible mark in the socio-political evolution of the modern states of the Middle East. This book explores the infusion of the political language of anti-Semitism, nationalism, fascism, and Marxism that were among the ideological byproducts of Axis and Allied intervention in the Arab world. The status of British-dominated Middle East was tailor-made for exploitation by Axis intelligence and propaganda. German and Italian intelligence efforts fueled anti-British resentments; their influence shaped the course of Arab nationalist sentiments throughout the Middle East. A relevant parallel to the pan-Arab cause was Hitler's attempt to bring ethnic Germans into the fold of a greater German state. In theory,

as the Sudeten German stood on par with the Carpathian German, so too, according to doctrinal theory, did the Yemeni stand in union with the Syrian in the imagination of those espousing pan-Arabism. As historic evidence demonstrates, this very commonality proved to be a major factor in the development of relations between Arab and Fascist leaders. The Arab nationalist movement amounted to nothing more than a shapeless, fragmented, counter position to British imperialism, imported to the Arab East via Berlin for Nazi aspirations. *The Secret War in Italy* Macmillan
 The role of intelligence in colonialism and decolonization is a rapidly expanding field of study. The premise of *The Secret Anglo-French War in the Middle East* is that intelligence statecraft is the "missing dimension" in the established

historiography of the Middle East during and after World War II. Arguing that intelligence, especially covert political action and clandestine diplomacy, played a key role in Britain's Middle East policy, this book examines new archival sources in order to demonstrate that despite World War II and the Cold War, the traditional rivalry between Britain and France in the Middle East continued unabated, assuming the form of a little-known secret war. This shadow war strongly influenced decolonization of the region as each Power sought to undermine the other; Britain exploited France's defeat to evict it from its mandated territories in Syria and Lebanon and incorporate them in its own sphere of influence; whilst France's successful use of intelligence enabled it to undermine Britain's position in Palestine, Egypt, Saudi Arabia and Iraq. Shedding new light on the clandestine Franco-Zionist collaboration against Britain in the Middle East and the role of the British secret services in the 1948 Arab-Jewish war in Palestine, this book, which presents close to 400 secret Syrian and British documents obtained by the French intelligence, is essential reading for scholars with an interest in the political history of the region, inter-Arab and international relations, and intelligence studies.

SAS Secret War Penguin UK

"The story of Daniel Ellsberg and his decision to steal and publish secret documents about America's involvement in the Vietnam War"--

What We Won Yale University Press

A joint biography of John Foster Dulles and Allen Dulles, who led the United States into foreign adventures that decisively shaped today's world as the Cold War was at its peak.

Rise of the Machines W. W. Norton & Company

This work is an in-depth study of Syrian politics and foreign relations between 1949 and 1961. Previously unstudied aspects of Syrian covert intervention in the 1958 Lebanese Civil War and of a Syrian-Jordanian "dirty war" are also included. Covert action and terrorism have played major roles in the policies of the Middle East. It is impossible to comprehend the intricacies of regional politics without an understanding of the covert machinations that lie beneath the surface. This work is an in-depth study of Syrian politics and foreign relations between 1949 and 1961. Topics covered include the role of foreign governments in manipulating Syria's numerous military coups; the covert struggle to remove Adib al-Shishakli, the conflicts in the late 1950s

between Syrian politicians and officers, the consolidation of power in Syria by chief Abd al-Hamid Sarraj and his covert battles with Lebanon, Jordan and Iraq from 1957 onwards. Previously unstudied aspects of Syrian covert intervention in the 1958 Lebanese Civil War and of a Syrian-Jordanian "dirty war" are also included. Throughout the book, particular attention is paid to the role of the Syrian Social Nationalist Party.

The Secret War of 1834 I.B. Tauris

Do secret scalar weapons underpin a modern day Cold War? Does a 'breakaway' civilization rule our world? Are the secret Middle Eastern drone wars pivotal to Military/ Industrial profit - or are they a diversion for something more sinister? *Rise of the Machines* takes you deep into the world of secret science and hidden weapons platforms. From the Cold War until present, a secret underworld of deception, technology suppression, and weaponization has led to a rise of machines that will shock you to the core. Killer drones circle the Middle East striking fear into every heart, but what power stands behind them, allowing them total freedom? If scalar weapons exist in veiled secrecy, what is their role in the War on Terror? What was the level of secret Russian/ US complicity during the Cold War? Where does that level sit now? Has anti-gravity propulsion been concealed by a breakaway faction of the US Intelligence machine, and if so, is there a secret space war in our own solar system? In *Rise of the Machines*, research author Travis Stone shows that all of these possibilities are not only realistic, but frighteningly close to humanity's ultimate deception.

The Secret War Against the Jews

HarperCollins

This explosive narrative reveals for the first time the shocking hidden years of Coco Chanel's life: her collaboration with the Nazis in Paris, her affair with a master spy, and her work for the German military intelligence service and Himmler's SS. Gabrielle "Coco" Chanel was the high priestess of couture who created the look of the modern woman. By the 1920s she had amassed a fortune and went on to create an empire. But her life from 1941 to 1954 has long been shrouded in rumor and mystery, never clarified by Chanel or her many biographers. Hal Vaughan exposes the truth of her wartime collaboration and her long affair with the playboy Baron Hans Günther von Dincklage—who ran a spy ring and reported directly to Goebbels. Vaughan pieces together how Chanel became a Nazi agent, how she escaped arrest after the war and joined her lover in exile in

Switzerland, and how—despite suspicions about her past—she was able to return to Paris at age seventy and rebuild the iconic House of Chanel.

Germs Greenhill Books/Lionel Leventhal

A hugely controversial work that exposes a series of scandals from Oliver North to the British royal family, *The Secret War Against the Jews* reveals as much about political corruption inside Western intelligence as it does about Israel. Using thousands of previously top-secret documents and interviews with hundreds of current and former spies, Loftus and Aarons, both veteran investigators, Nazi-hunters, and authors, present a compelling narrative. The authors demonstrate that numerous Western countries, especially the United States and Great Britain, have conducted repeated and willful spying missions on Palestine and later Israel over many decades. While on the surface these two countries and others profess to be ardent allies of Israel, they work, in fact, through their intelligence services to betray Israel's secrets to the Arabs. Their motive: oil and multinational profits, which must be attained at any price through international covert policies. The pageant of characters appearing in this narrative is vast and shocking. This is not only a compelling work of history, but also a volume whose grave allegations will be debated for years to come.

Secret War in Shanghai St. Martin's Press

Secret Wars is the first book to systematically analyze the ways powerful states covertly participate in foreign wars, showing a recurring pattern of such behavior stretching from World War I to U.S.-occupied Iraq. Investigating what governments keep secret during wars and why, Austin Carson argues that leaders maintain the secrecy of state involvement as a response to the persistent concern of limiting war. Keeping interventions "backstage" helps control escalation dynamics, insulating leaders from domestic pressures while communicating their interest in keeping a war contained. Carson shows that covert interventions can help control escalation, but they are almost always detected by other major powers. However, the shared value of limiting war can lead adversaries to keep secret the interventions they detect, as when American leaders concealed clashes with Soviet pilots during the Korean War. Escalation concerns can also cause leaders to ignore covert interventions that have become an open secret. From Nazi Germany's role in the Spanish Civil War to American covert operations during the Vietnam War, Carson presents new

insights about some of the most influential conflicts of the twentieth century. Parting the curtain on the secret side of modern war, *Secret Wars* provides important lessons about how rival state powers collude and compete, and the ways in which they avoid outright military confrontations.

The Secret War Macmillan

"An entire piece of Serbian history is missing. And in the middle of the latest Yugoslav war - Europe's worst blood bath since World War II - Serbian politicians, propagandists, and revisionist historians have made a cynical attempt at replacing the missing piece by rewriting the Holocaust record. They claim that Serbs were not Nazi collaborators in genocide, but purely victims of the same atrocities that befell the Jews; and that Serbian aspirations for a Greater Serbia are not driven by a murderous, nationalistic hatred, but rather are propelled by a victim's desire to lay claim to a safe homeland, a Serbian Promised Land. Thus has the current spilling of blood been justified." "Philip J. Cohen argues that the existence of such a propaganda campaign, emanating from Belgrade, began in the earliest days of the post-World War II era and, since then, has been reflected in the world media, as well as in popular commentary and scholarly analysis. More astonishing is that this campaign has been widely successful, particularly in Israel." "Remarkable for its broad portrayal and penetrating examination of the Yugoslav social and political experience, *Serbia's Secret War* draws heavily on documents that have been previously unavailable to the West. Some of the written record has been translated and is published here for the first time. Destined to be regarded as an important contribution to the field, Cohen's careful study of the Serbian role in the Second World War will dramatically alter how scholars, policy makers, and the general public view the bloodshed in the former Yugoslavia - and how they will come to understand the reasons behind it."--BOOK JACKET.Title Summary field provided by Blackwell North America, Inc. A Great Place to Have a War Random House Trade Paperbacks

Explores the life of Varian Fry, an American political journalist who masterminded the escape from occupied Europe of nearly two thousand of Europe's intelligentsia, many of them Jewish refugees

Killing the Killers I. B. Tauris

At the beginning of May 2005, just before the British elections, the London Times published the so-called Downing Street

memo, the leaked secret minutes of a July 2002 meeting of senior British foreign policy and security officials. The memo suggested that eight months before the invasion of Iraq, long before weapons inspections resumed, President Bush had already decided on war and to justify it by Iraq's weapons of mass destruction and links to terrorists, that the "intelligence and facts were being fixed around the policy," that the US wanted to avoid consulting the UN, and that few plans were being made for the aftermath of war. Largely ignored in the US press for weeks afterward, the memo was finally published, with an extensive commentary by Mark Danner, in *The New York Review*. Danner wrote two follow-up pieces about the significance of the memo, showing how it proves that Bush had decided to invade Iraq much earlier than he admitted and only agreed to weapons inspections not to avoid war but in the expectation that the Iraqis would invite it by refusing to cooperate. Most important, Danner argues that in the face of such clear evidence of deception, the press, public, and Congress still have not held the administration responsible. *The Secret Way to War* brings together Mark Danner's strongly argued analysis of the Downing Street Memo, along with the text of the memo itself and seven other leaked British documents that show Tony Blair's government struggling to find legal and political rationales and strategies to support regime change in Iraq.

Secret War in the Middle East Macmillan Presents an account of germ weaponry around the globe, including the Soviet Union's biological weapons program that contains an abundance of anthrax germs, and the United States' attempt to put an end to these efforts.

Mysterious Mike and the Hmong Simon and Schuster

The war in Italy was characterized by a host of Special Forces actions. The fact that the Italians had formed two governments, one backing the Allies and one a puppet German government, meant that the secret war was vital to the Allies conventional forces and partisans, the SAS, SOE, the US OSS (precursor to the CIA) all played important roles. On the night of 20/21 April 1945, the last operational jump of World War 2 took place--"Operation Herring. Operation Herring lasted over 72 hours instead of the 36 initially foreseen, but it turned out to be a success. The action did presage the end of the Italian campaign and the war in Italy, but until now little has been written about this, and other secret operations, on the Italian front. It will be an essential

reference for students of World War 2. The Secret Way to War St. Martin's Press Gordon Thomas has established himself as a leading expert on the intelligence community. He returns here on the one hundredth anniversaries of Britain's Security and Secret Intelligence Services to provide the definitive history of the famed MI5 and MI6. These agencies rank as two of the oldest and most powerful in the world, and Thomas's wide-sweeping history chronicles a century of both triumphs and failures. He recounts the roles that British intelligence played in the Allied victory in World War II; the postwar treachery of Great Britain's own agents; the defection of Soviet agents and the intricate process of "handling" them; the often frigid relationship that both agencies have had with the CIA, European spy services, and the Mossad; the cooperation between the British and Americans in the search for Osama bin Laden; and the ways in which MI5 and MI6 have fought biological warfare espionage and space terrorism. All told, this is the story of two agencies led by men---and women---who are enigmatic, eccentric, and controversial, and who ruthlessly control their spies. Based on prodigious research and interviews with significant players from inside the British intelligence community, this is a rich and even delicious history packed with intrigue and information that only the author could have attained.

Serbia's Secret War Anchor

The covert, clandestine operations of the Special Air Service (SAS) regiment, from the jungles of Malaya, Borneo and Brunei to the deserts and mountains of the Middle East and Afghanistan have always been the focus of intense fascination, stoked by the regiment's 'closed' organization and secretive activities. However, no period of activity has remained more secret than the vital years in the immediate aftermath of World War II when the regiment seemingly expired, only to rise miraculously from the dead to fight communism in the Malaya Emergency. Tim Jones' fascinating history pieces together the evidence to show that while the Malaya Emergency re-established the SAS as a unique source of counter-guerilla expertise, the regiment was not disbanded in 1945 and was, in fact, covertly involved in the Greek Civil War of 1945-49, a war unmatched in savagery until the Bosnian conflict in the 1990s. Revealing important operational secrets and shedding new light on post-war history, this book will be essential reading for enthusiasts of military history, and those interested in the world of intelligence.

The Secret Anglo-French War in the Middle East Bloomsbury Publishing

George Friedman delivers the geopolitical story that the mainstream media has been unable to uncover — the startling truth behind America's foreign policy and war effort in Afghanistan, Iraq, and beyond. Friedman, founder of Stratfor, one of the world's most respected private global intelligence firms, and Geopolitical Futures, has an unmatched ability to provide clear perspective on the current geopolitical map. In *America's Secret War*, George Friedman identifies the United States' most dangerous enemies, delves into presidential strategies of the last quarter century, and reveals the real reasons behind the attack of 9/11—and the Bush administration's motivation for the war in Iraq. It describes in eye-opening detail America's covert and overt efforts in the global war against terrorism: Not only are U.S. armies in combat on every continent, but since 9/11 the intelligence services of dozens of nations have been operating in close partnership with the CIA. Drawing on his vast information-

gathering network, Friedman presents an insightful picture of today's world that goes far beyond what is reported on television and in other news media. Al Qaeda's war plans and how they led to 9/11. The threat of a suitcase nuclear bomb in New York and how that changed the course of the war. The deal the U.S. made with Russia and Iran which made the invasion of Afghanistan possible - and how those deals affect the United States today. How fear and suspicion of the Saudis after 9-11 tore apart the Bush-Saudi relationship and why Saudi Arabia's closest friends in the administration became the Saudi's worst enemies. The real reasons behind George W. Bush's invasion of Iraq and how WMD became the cover for a much deeper game. How the CIA miscalculated about Saddam Hussein's and Iran's real plans, leaving the U.S. bogged down in the war. How the war in Iraq began with a ruse, pretending that a "target of opportunity" attack on Saddam Hussein had presented itself. The real story about why the U.S. raises and lowers its alert status and why the United States can't find and destroy al Qaeda. The

strategic successes that are slowly leading the United States to victory. *America's Secret War* is an unprecedented look at the new world war being waged behind-the-scenes today. It is sure to stir debate and capture headlines around the world. *The Secret War* Bloomsbury Publishing
A powerful survey of a militarized America building a surveillance structure unparalleled in history.
Sleeping with the Enemy Random House Trade Paperbacks
After years of extensive research and review, including infiltration into America's Fraternal Lodge systems 7 years of active membership in the Blue Lodge of Freemasonry, and 9 different esoteric orders-exclusive invitational groups like the Masonic Rosicrucians, and the Knight Masons, Frater X reveals for the first time in print the prosecution of a Secret War conducted within the ranks of the world's oldest and most powerful secret societies spanning the history of America, humanity, and beyond...
