A "well-researched and very readable new biography" (The Wall Street Journal) of "the Thomas Edison of guns," a visionary inventor who designed the modern handgun and whose awe-inspiring array of firearms helped ensure victory in numerous American wars

and holds a crucial place in world history. Few people are aware that John Moses Browning—a tall, humble, cerebral man born in 1855 and raised as a Mormon in the American West—was the mind behind many of the world-changing firearms that dominated more than a century of conflict. He invented the design used in virtually all modern pistols, created the most popular hunting rifles and shotguns, and conceived the machine guns that proved decisive not just in World Wars I and II but nearly every major military action since. Yet few in America knew his name until he was into his sixties. Now, author Nathan Gorenstein brings firearms inventor John Moses Browning to vivid life in this riveting and revealing biography. Embodying the tradition of self-made, self-educated geniuses (like Lincoln and Edison), Browning was able to think in three dimensions (he never used blueprints) and his gifted mind produced everything from the famous Winchester "30-30" hunting rifle to the awesomely effective machine guns used by every American aircraft and infantry unit in World War II. The British

credited Browning's guns with helping to win the Battle of Britain. His inventions illustrate both the good and bad of weapons. Sweeping, lively, and brilliantly told, this fascinating book that "gun collectors and historians of armaments will cherish" (Kirkus Reviews) introduces a little-known legend whose impact on history ranks with that of the Wright Brothers, Thomas Edison, and Henry Ford.

This handbook is primarily for the use of persons in the business of importing, manufacturing, and dealing in firearms defined by the National Firearms Act (NFA) or persons intending to go into an NFA firearms business. It should also be helpful to collectors of NFA firearms and other persons having questions about the application of the NFA. This publication is not a law book. Rather, it is intended as a "user friendly" reference book enabling the user to quickly find answers to questions concerning the NFA. Nevertheless, it should also be useful to attorneys seeking basic information about the NFA and how the law has been interpreted by ATF. The book's Table of Contents will be helpful to the user in locating needed information. Although the principal focus of the

handbook is the NFA, the book necessarily covers provisions of the Gun Control Act of 1968 and the Arms Export Control Act impacting NFA firearms businesses and collectors.

Publishing Group Haunting suspense and captivating villains, the hallmark of James Lee Burke's bestselling novels of evil and redemption, are brilliantly evoked in his new Billy Bob Holland opus, the follow-up to the popular and critically acclaimed Bitterroot.

"James Lee Burke tells a story in a style all his own, in language that's alive, electric. He's a master at setting mood, laying in atmosphere, all with quirky dialogue that's a delight." —Elmore Leonard In James Lee Burke's last novel featuring Billy Bob Holland, Bitterroot, the former Texas Ranger left his home state to help a

friend threatened by the most dangerous sociopath Billy Bob had ever faced. After vanquishing a truly iniquitous collection of violent individuals, Billy moved his family to west Montana and hung out a shingle for his law practice. But in In the Moon of Red Ponies, he discovers that jail cells have revolving doors and that the government he had sworn to serve may have become his enemy. His first client in Missoula is Johnny American Horse, a young activist for land preservation and the rights of Native Americans. Johnny is charged with the murder of two mysterious men—who seem to have recently tried to kill Johnny themselves, or at least scare him off his political causes. As Billy Bob investigates, he discovers a web of intrigue surrounding the case and its players: Johnny's girlfriend, Amber Finley, as reckless as she is defiant—and the daughter of one of Montana's US senators; Darrel McComb, a Missoula police detective who is obsessed with Amber; and Seth Masterson, an enigmatic government agent whose presence in town makes Billy Bob wonder why

Washington has become so concerned with an obscure murder case on the fringes of the Bitterroot Mountains. As complications mount and the dead bodies multiply, Billy Bob is drawn closer to the truth behind Johnny American Horse's arrest—and discovers a greater danger to himself and to his whole family. How Billy Bob strikes back at evil and protects his kin is the masterful triumph of *In the Moon of Red Ponies*. Beautifully written, with an intriguing plot and characters whose conflicts seem as real as life itself, this novel shows James Lee Burke again in the top form that has made him a critical favorite and a national bestseller.

You may think you're too old to run fast, but you're not too old to run well. When the lead runner starts his final lap in a long-distance race, the starter fires his pistol for the second time.
