*Medieval Heresies* Simon & Schuster  
First published in 1959, *Our Experience of God* examines the relationship between philosophy and religion. The author argues that, we cannot construct a religion for ourselves out of merely philosophical elements, and that the attempt to provide some philosophical or similar substitute for religion, as it normally presents itself, is misconceived. It brings themes like

religion and belief; belief and mystery; religion and transcendence; history and dogma; material factors in religion; symbolism and tradition; art and religion; religion and morality; and encounter and immediacy, to show that the place of philosophy in religion is not to provide proofs for beliefs but to make more explicit for us what is the nature and status of the beliefs we do hold and commend to others. This book will be of interest to scholars and researchers of religion, philosophy, and theology.

Begin each morning by communing with your angels, using the 365 channeled meditations in this beautiful gift edition by best-selling author Doreen Virtue. Each page offers a comforting and uplifting message that sets a positive and healing tone for the day. This material also functions as a divination tool, as you can ask a question and open the book to a thought that provides guidance, support, answers, and encouragement. *Daily Guidance from Your Angels* will keep you centered in peacefulness throughout the day, and will help you remember that your

angels are always beside you, ready to assist you with every area of your life. A beautiful ribbon bookmark bound into the spine is the perfect way to easily mark your place, both morning and evening. This book makes the perfect gift for those you love . . . including yourself!

*New World Utopias* PIMS

Did you know that the most revered esoteric divination deck in Europe after Tarot is the Belline oracle? A French cartomancy reference since its first publication, the oracle's illustrations were created in the 1800s by Edmond, famous card reader and astrologer whose clients included Alexandre Dumas, Victor Hugo, Napoleon III and many alumni of the time. Marcel Forget, known as Belline, Prince of Seers used his name and reputation to bring the oracle to the masses in the 1960s; many books in French have been published since, but no significant English manual on the Belline Oracle has come to light - until now! Following her significant contribution to the Lenormand oracle's renaissance, Sylvie Steinbach introduces the *Secrets of the Belline Oracle*, sharing her analysis of the fifty-three cards supporting Edmond's definitions, and her

use of the oracle for modern card reading. With this essential introduction, you will learn to understand the 53 cards' meanings by unlocking their symbolism, integrate Sylvie Steinbach's contemporary attributes on the original definitions, apply the cards using basic and advanced spreads that address any type of inquiries, and offer spiritual readings such as mediumship, past life and manifestation work to your clients. If you seek to expand your knowledge on oracles, this manual is your next step to mastering the Edmond-Belline oracle masterpiece.

*Birth of God* Elsevier

Jean Bottero, one of the world's leading figures in Ancient Near Eastern Studies, approaches the Bible as an astounding variety of documents that reveal much of their time of origin, historical events, and climates of thought.

Here is a surprising photographic survey of communal life in the American West from 1870 to the present. Many of the nearly three hundred photographs assembled here have never before been published. Some were discovered by Paul Kagan among the remains of vanished communities. Others, taken by Kagan himself, depict the present-day ruins of once thriving communes. The communities that these photographs and

the accompanying text bring so vividly to life include the political, the religious, and the occult - from Fountaingrove and Icaria Speranza to Pisgah Grande and the Tassajara Zen Mountain Center. All of them hold valuable lessons for the world of the future. As Paul Kagan writes: "Much of the life, and much of the story, is in the photographs. The photographs that I made represent my feelings about the communal remains, and the historical photographs show a little of the daily life of the groups. The accompanying text tells the communal history and, hopefully, raises some pertinent questions. The search for community is generally directed toward someplace 'over there.' Can the vision of the utopians be pursued here, in the context of life in the world?"

4e de couverture : Anthropology is one of the most challenging and rapidly expanding areas of human knowledge today. This Dictionary aims to be a useful guide to the subject for the student and interested layman as well as for the academic anthropologist. It is unique in the existing literature in providing in a

single volume coverage of basic concepts, key theoretical issues and the work of some 250 British, American and European anthropologists. It covers the subject from the early ethnographers to the most recent research, offering clear definitions of such formidable topics as the work of Levi-Strauss or the influence of semiology. The 2000 entries are fully cross-referenced and are supplemented by an extensive bibliography. Aimed primarily at students, it should provide useful reference not only for anthropologists, but for students of related disciplines at a time when the academic reputation of the subject, and the need for historians, sociologists, political scientists among others to be familiar with its central concepts and thinkers has never been so great.

THE CLOUD OF UNKNOWING and THE BOOK OF PRIVY COUNSELING are the first explorations in the English language of the soul's quest for God. Written in Middle English by an unknown fourteenth-century mystic, THE CLOUD OF UNKNOWING expresses with beauty a message that has inspired such great religious thinkers as St. John of the Cross and Teilhard de Chardin, as well as countless others in search of God. Offering a practical guide to

the life of contemplation, the author explains that ordinary thoughts and earthly concepts must be buried beneath a "cloud of forgetting," while our love must rise toward a God hidden in the "cloud of unknowing." THE BOOK OF PRIVY COUNSELING, also included in this volume, is a short and moving text on the way to enlightenment through a total loss of self and a consciousness only of the divine. William Johnston, an authority on fourteenth-century mysticism and spirituality, provides an accessible discussion of the works, detailing what is known about the history of the texts and their author. In a new foreword, Huston Smith draws on his extensive knowledge of the varieties of religious experience to illuminate the relevance of these works for contemporary readers.

"The search for transcendence is an absorbing and ongoing enterprise. Transcendence is the most discussed, the most compelling, and the most engaging of the subjects with which contemporary theologians deal ... The impulse to move from the ordinary dimensions of life to the extraordinary is not invented by the theologians but is one which appears to spring up from the deepest levels of

consciousness itself." [Introduction]. *Religion and the Individual* Hay House, Inc This collection of essays in honour of Kalliopi K. Koufa, the first woman to become Professor of International Law in Greece, brings to light the multiple faces, the expanding scope and diversity of international law.

*Horoscope Belline* HarperCollins Publishers Since publication in 1979 Isabel Rivers' sourcebook has established itself as the essential guide to English Renaissance poetry. It: provides an account of the main classical and Christian ideas, outlining their meaning, their origins and their transmission to the Renaissance; illustrates the ways in which Renaissance poetry drew on classical and Christian ideas; contains extracts from key classical and Christian texts and relates these to the extracts of the English poems which draw on them; includes suggestions for further reading, and an invaluable bibliographical appendix.
