A young, hopeful doctor's memoir—an unforgettable love story and an informative journey into the world of medicine and kidney transplantation that ultimately asks: What does it mean to let go of something that you love, even if it is life itself? When Vanessa fell in love with Robert, she had no idea that the relationship would thoroughly transform her

life. Robert suffered from end-stage kidney disease, which required him to endure years of debilitating dialysis to stay alive, at least until his failed organ could be replaced by a kidney transplant. Although Vanessa was a primary care doctor, she developed a deeper understanding of the difficulties Robert faced with dialysis and in finding a donor. Despite their being early in

their relationship, she volunteered one of her own kidneys—and discovered that she was a match. This life-affirming experience forged a bond that would become a pillar of Vanessa and Robert's marriage—and the beginning of her new career. Motivated by Robert's experience and her newfound knowledge, Vanessa became a nephrologist—a kidney

doctor—and discovered far more about the realities of the specialty. Shaped by Vanessa’s remarkable experiences as a doctor, a woman of color, a mother, and a kidney donor, Hundreds of Interlaced Fingers is a love story, an exposé, and a clarion call for us all to consider the dualities of both loving and letting go. Bawdwen Peachpit Press The story of The Hundreds and the precepts that made it an iconic streetwear brand by Bobby Hundreds himself Streetwear occupies that rarefied space where genuine "cool" coexists with big business; where a star designer might work concurrently with Nike, a tattoo artist, Louis Vuitton, and a skateboard company. It’s the ubiquitous style of dress

comprising hoodies, sneakers, and T-shirts. In the beginning, a few brands defined this style; fewer still survived as streetwear went mainstream. They are the OGs, the “heritage brands.” The Hundreds is one of those persevering companies, and Bobby Hundreds is at the center of it all. The creative force behind the brand, Bobby Kim, a.k.a. Bobby Hundreds, has emerged as a prominent

face and voice in streetwear. In telling the story of his formative years, he reminds us that The Hundreds was started by outsiders; and this is truly the story of streetwear culture. In *This Is Not a T-Shirt*, Bobby Hundreds cements his spot as a champion of an industry he helped create and tells the story of The Hundreds—with anecdotes ranging from his Southern California, punk-DIY-tinged youth

to the brand's explosive success. Both an inspiring memoir and an expert assessment of the history and future of streetwear, this is the tale of Bobby's commitment to his creative vision and to building a real community.

 Thanks for spilling Hundreds and Thousands across your page. These one hundred word stories are meant for simple

indulgence; they are bite sized treats you can devour as quickly or slowly as you wish but please, place them on your tongue one by one. The short story is unique because it can be difficult to say what you would like to in only a certain number of words, whether it be one hundred or ten thousand. I like to think of the one hundred word story as a slice of conversation that you might

share with someone special, with someone you might not prefer the company of, or even with a stranger. It is a slice of air time that you or someone else may allow space for. Like a conversation with someone, the short story is something you might walk away and think about, reflecting on something new you may have discovered. The idea within a short story will continue to work in your mind long

after you have read it. It means that the reader has a little more work to do, and understanding each story can be a little tricky sometimes, which is why these one hundred word stories should be consumed slowly, one at a time for pure enjoyment. I began writing these snapshot stories when I moved back to Australia after living in Indonesia for a year and a half. I witnessed

many events that seemed absurd to me while I was living in Indonesia, but when I returned to Australia things seemed even more foreign to me. I was suffering from reverse culture shock and so after lifting the rose-coloured glasses from my face, I saw what used to be normal Australian life to me, with a different set of shades. These short stories were an interesting way of coping with my shock. The

result is this collection. There are so many stories out there in the world, hundreds and thousands of them, and so I thank you for taking the time to read these little sweet treats. - Tracie Lark aka The Literary Gangster. The Hundreds Independently Published Filled with fun facts and amazing, scientifically accurate illustrations, The Little Chunky Book of Sharks is a big book of learning sure

to entertain and inform kids of all ages. Discover everything there is to know about sharks, both small and large, from long-extinct species like megalodon to why sharks behave the way they do today. The Little Chunky Book of Sharks is perfect for aspiring marine biologists to tuck into their backpacks for beach or boat expeditions or to read in bed at night.

The Hundred Dresses

Simon and Schuster Ordinary Affects is a singular argument for attention to the affective dimensions of everyday life and the potential that animates the ordinary. Known for her focus on the poetics and politics of language and landscape, the anthropologist Kathleen Stewart ponders how ordinary impacts create the subject as a capacity to affect and be affected. In a series of brief

vignettes combining storytelling, close ethnographic detail, and critical analysis, Stewart relates the intensities and banalities of common experiences and strange encounters, half-spied scenes and the lingering resonance of passing events. While most of the instances rendered are from Stewart's own life, she writes in the third person in order to reflect on how intimate

experiences of emotion, the body, other people, and time inextricably link us to the outside world. Stewart refrains from positing an overarching system—whether it's called globalization or neoliberalism or capitalism—to describe the ways that economic, political, and social forces shape individual lives. Instead, she begins with the disparate, fragmented, and seemingly

inconsequential experiences of everyday life to bring attention to the ordinary as an integral site of cultural politics. Ordinary affect, she insists, is registered in its particularities, yet it connects people and creates common experiences that shape public feeling. Through this anecdotal history—one that poetically ponders the extremes of the ordinary and portrays the dense network of

social and personal connections that constitute a life—Stewart asserts the necessity of attending to the fleeting and changeable aspects of existence in order to recognize the complex personal and social dynamics of the political world. by Mannex & Co Houghton Mifflin Harcourt One of the U.S. government's leading China experts reveals the hidden strategy fueling that country's rise – and how Americans have been seduced into helping China overtake us as the world's leading superpower. For more than forty years, the United States has played an indispensable role helping the Chinese government

build a booming economy, develop its scientific and military capabilities, and take its place on the world stage, in the belief that China's rise will bring us cooperation, diplomacy, and free trade. But what if the "China Dream" is to replace us, just as America replaced the British Empire, without firing a shot? Based on interviews with Chinese defectors and newly declassified,

previously undisclosed national security documents, The Hundred-Year Marathon reveals China's secret strategy to supplant the United States as the world's dominant power, and to do so by 2049, the one-hundredth anniversary of the founding of the People's Republic. Michael Pillsbury, a fluent Mandarin speaker who has served in senior national security positions in the U.S.

government since the days of Richard Nixon and Henry Kissinger, draws on his decades of contact with the "hawks" in China's military and intelligence agencies and translates their documents, speeches, and books to show how the teachings of traditional Chinese statecraft underpin their actions. He offers an inside look at how the Chinese really view America and its leaders

- as barbarians who will be the architects of their own demise. Pillsbury also explains how the U.S. government has helped - sometimes unwittingly and sometimes deliberately - to make this "China Dream" come true, and he calls for the United States to implement a new, more competitive strategy toward China as it really is, and not as we might wish it to be. The Hundred-Year

Marathon is a wake-up call as we face the greatest national security challenge of the twenty-first century.
