In the first full-length
study of Shakespeare's
Roman plays, Coppélia
Kahn brings to these texts
a startling, critical
perspective which
interrogates the gender

ideologies lurking behind
'Roman virtue'. Plays
featured include: * Titus
Andronicus * Julius Caesar
* Antony and Cleopatra *
Coriolanus * Cymbeline
Setting the Roman works
in the dual context of the
popular theatre and
Renaissance humanism,
the author identifies new
sources which she
analyzes from a
historicised feminist
perspective. Roman

Shakespeare is written in
an accessible style and
will appeal to scholars and
students of Shakespeare
and those interested in
feminist theory, as well as
classicists.

King Henry VI, Part 1

Broadway Play Publishing
Discovered in a treasure-filled parking lot in Leicester, England (next to a pile of bones that

didn't look that important), an ancient manuscript proves to be the long-lost first play written by none other than seventeen-year-old William Shakespeare from Stratford. We are totally not completely making this up. WILLIAM SHAKESPEARE'S LONG LOST FIRST PLAY (abridged) is the literary holy grail: an actual manuscript in Shakespeare's own hand showing all his most famous characters and familiar speeches in a brand-new story. But

because it's one hundred hours long and contains multiple unwieldy storylines, it was decided, as a public service, to abridge it down to a brief and palatable ninety-minute performance for this lost masterpiece. "Something wickedly funny this way comes!" The New York Times "A breathlessly irreverent, pun-filled romp!" The Washington Post "A top-notch comic deconstruction of Shakespeare!" The Stage-

A child's dream takes us on a journey through space. The child looks for a place to land while exploring each planet, but some are too hot, some are too cold, and some are just made of liquid and gas. Only planet Earth is just right. Fun rhyming text introduces children to each planet and basic facts about it. The text is accompanied by stunning images of a

rocket traveling through the solar system, interspersed by close up images of each planet in order. While each planet is amazing in its own way, there is only one we can call home. If parents choose, this can be the start to a conversation about how we can take better care of our planet.
