Threatened by an early childhood heart infection, Carolyn Bourns spends the first half of her life carefully building structures she has been told will keep her safe—husband, home, children,

teaching career—but when she begins experiencing alarming heart arrhythmias at age forty-five, these structures start to dissolve, compelling her to take a close look at how safe and ideal her life really is. Follow Bourns as she recounts the extraordinary events that cast her out of the ordinary world of her birth and into the extraordinary world of the unseen as her heart continues to speak deeper truths.

Are you bored with your life? Life holds unending joy through the Holy Spirit, as the apostle Paul demonstrated, even in dire circumstances. Though Paul was a prisoner when he wrote his letter to the Philippians, his joy in Christ was contagious. This 12-week interactive study of the book of Philippians will guide Christian women to experience the joy of the Lord every day and let that joy shine out to others.

What happens to our loved ones when they die? Can we communicate with them? How do they spend their time? After her daughter, Sam, passed away, Beverly Holliday sought answers to these questions. Through divine guidance, she found professional mediums who helped her connect with her daughter on the other side. These dialogues comforted and healed Beverly while illuminating an existence beyond earthly life. She devoted several years to recording and transcribing her conversations with her daughter, with the mission of sharing Sam's messages—to bring hope and comfort to others who are grieving or seeking guidance. This true story offers a glimpse into Beverly's life as the mother of a gentle, compassionate child who

left this world unexpectedly. Throughout the book, Sam shares her insights about her time on earth and many fascinating and uplifting details about her life in heaven. These messages from Sam have dramatically changed Beverly's view on life, the afterlife, and losing her child—transforming her grief into joy. *Department of Defense Appropriations for ...* Harper Collins

From composer, musician, and philanthropist Peter Buffett comes a warm, wise, and inspirational book that asks, Which will you choose: the path of least resistance or the path of potentially greatest satisfaction? You may think that with a last name like his, Buffett has enjoyed a life of endless privilege. But the son of billionaire investor Warren Buffett says that the only real inheritance handed down from his parents was a philosophy: Forge your own path in life. It is a creed that has allowed him to follow his own passions, establish his own identity, and reap his own successes. In *Life Is What You Make It*, Buffett expounds on the strong set of values given to him by his trusting and broadminded mother, his industrious and talented father, and the many life teachers he has met along the way. Today's society, Buffett posits, has begun to replace a work ethic, relishing what

you do, with a wealth ethic, honoring the payoff instead of the process. We confuse privilege with material accumulation, character with external validation. Yet, by focusing more on substance and less on reward, we can open doors of opportunity and strive toward a greater sense of fulfillment. In clear and concise terms, Buffett reveals a great truth: Life is random, neither fair nor unfair. From there it becomes easy to recognize the equal dignity and value of every human life—our circumstances may vary but our essences do not. We see that our journey in life rarely follows a straight line but is often met with false starts, crises, and blunders. How we push through and persevere in these challenging moments is where we begin to create the life of our dreams—from discovering our vocations to living out our bliss to giving back to others. Personal and revealing, instructive and intuitive, *Life Is What You Make It* is about transcending your circumstances, taking up the reins of your destiny, and living your life to the fullest.

Sex is bad. Unprotected sex is a problem. Having a baby would be a disaster. Abortion is a sin. Teenagers in the United States hear conflicting messages about sex from everyone around them. How do teens understand these messages? In *Mixed Messages*, Stefanie Mollborn examines how social norms and social control work through in-depth interviews with college students and teen mothers and fathers, revealing the tough conversations teenagers just can't have with adults. Delving into teenagers' complicated social worlds Mollborn argues that by creating informal social sanctions like gossip and exclusion and formal communication such as sex education, families, peers, schools, and communities strategize to gain control over teens' behaviors. However, while teens strategize to keep control, they resist the constraints of the norms, revealing the variety of outcomes that occur beyond compliance or deviance. By showing that the norms existing today around teen sex are ineffective, failing to regulate sexual behavior, and instead punishing teens that violate them, Mollborn calls for a more thoughtful and consistent dialogue between teens and adults, emphasizing messages that will lead to more positive health outcomes.

In May 2012, bestselling author Neil Gaiman delivered the commencement address at Philadelphia's University of the Arts, in which he shared his thoughts about creativity, bravery, and strength. He encouraged the fledgling painters, musicians, writers, and dreamers to break rules and think outside the box. Most of all, he encouraged them to make good art. The book *Make Good Art*, designed by renowned graphic artist Chip Kidd, contains the full text of Gaiman's inspiring speech.

This book could save you \$1 million! OK, maybe not - but some school districts have spent that much defending themselves (and not always successfully) in First Amendment lawsuits brought by students and their parents. First Amendment litigation is on the rise across the nation, and as any principal who has sat through a deposition in one of those cases can tell you, the raw emotions and zealous anger that fuels such disputes can become a massive distraction from your real job of running a school. The Oldest Rule is a comprehensive examination of the different First Amendment issues involving students that public school administrators and attorneys are increasingly facing on daily basis. We will look at such topics as school prayer, dress codes, student threats and cyberbullying, the distribution of literature, the use of public facilities by outside groups, the celebration of religious holidays, and the rise of esoteric religions and their impact in the public schools. Written by Chris Gilbert, an attorney with over twenty-one years' experience advising and representing school districts - big and small, urban and rural -- this book combines discussions of the legal standards and key case decisions with practical advice and hypotheticals.

**#1 BESTSELLER** • Ben Mears has returned to Jerusalem's Lot in hopes that exploring the history of the Marsten House, an old mansion long the subject of rumor and speculation, will help him cast out his personal devils and provide inspiration for his new book. But when two young boys venture into the woods, and only one returns alive, Mears begins to realize that something sinister is at work. In fact, his hometown is under siege from forces of darkness far beyond his imagination. And only he, with a small group of allies, can hope to contain the evil that is growing within the borders of this small New England town. With this, his second novel, Stephen King established himself as an indisputable master of American horror, able to transform the old conceits of the genre into something fresh and all the more frightening for taking place in a familiar, idyllic locale.
