Department of Education Regulation) (ED)  
(2018 Edition). Updated as of May 29,  
2018 On July 1, 2014, the HEAL Program  
was transferred from the U.S. Department

of Health and Human Services (HHS) to the U.S. Department of Education (the Department). To reflect this transfer and to facilitate the servicing of all HEAL loans that are currently held by the Department, the Secretary adds the HEAL Program regulations to the Department's chapter in the Code of Federal Regulations (CFR). This book contains: - The complete text of the Health Education Assistance Loan Program (US Department of Education Regulation) (ED) (2018 Edition) - A table of contents with the page number of each section

Excerpt from Annual Report of the Department of Education: For the Year Ending June 30, 1964 Pertinent statistics on education in Massachusetts for 1963-1964 are presented here. This report is reorganized into sections and tables for ease in finding and recognizing items of information and to provide for a more direct flow of data from source documents to publication here. The List of Tables shows that the data is presented in two sections according to whether it is fall or end of year information. Each section is further broken down into a series of tables of closely related information. Information in addition to that published in previous years is included to present more of the educational data collected by the Division of Research and Statistics. Definitions and Classifications are similar to those in other years except for financial data which is classified and defined according to Financial Accounting for the Public Schools in Massachusetts. To allow for greater conciseness in presentation, two major changes were made. Cities and towns are listed alphabetically and followed by

regional school districts instead of the four groups of Cities and towns as given previously. Grade organization information is condensed into Elementary (grades 1 6 and 1 8) and Secondary (grades 7 12 and 9 12) instead of the various grade organization breakdowns of previous years. To this end, the administration already has presented five major legislative proposals: Goals 2000: Educate America Act, the Safe Schools Act, the School-to-Work Opportunities Act, the Student Loan Reform Act, and the National Service Trust Act. Student Loan Reform and National Service Trust have already been enacted into law. The department also has undertaken notable management initiatives and cooperative efforts with other cabinet departments.

The Politics of Federal Reorganization  
Policy Patrons offers a rare behind-the-scenes view of decision making inside four influential education philanthropies: the Ford Foundation, the W. K. Kellogg Foundation, the Bill & Melinda Gates Foundation, and the Eli and Edythe Broad Foundation. The outcome is an intriguing, thought-provoking look at the impact of current philanthropic efforts on education. Over a period of several years, Megan E. Tompkins-Stange gained the trust of key players and outside observers of these four organizations. Through a series of confidential interviews, she began to explore the values, ideas, and beliefs that inform these foundations' strategies and practices. The picture that emerges reveals important differences in the strategies and values of the more established foundations vis-à-vis the newer, more activist foundations—differences that have a significant impact on education policy and practice, and have important implications for democratic decision making. In recent years, the philanthropic sector has played

an increasing role in championing and financing education reform. Policy Patrons makes an original and invaluable contribution to contemporary discussions about the appropriate role of foundations in public policy and the future direction of education reform.

The Politics of Federal Reorganization: Creating the U.S. Department of Education deals with the politics underlying the creation and early implementation of the U.S. Department of Education, with emphasis on the characteristics and dimensions of the stages of the policy process. The literature on reorganization in general, and federal government reorganization in particular, is examined. Comprised of nine chapters, this volume provides a glimpse into the reasons why reorganization efforts are ubiquitous and yet very difficult to implement. A number of themes are discussed: the importance of the stages of the policy process in shaping the nature of political action; the internal tensions within the executive branch; the conflict between the culture of analysis and the culture of politics; the role of interest groups and issue networks in shaping public policy; and the

continuing uncertainty about the federal role in education. Jimmy Carter's goals in establishing a new Department of Education are also analyzed, along with the deliberations in Congress and Ronald Reagan's proposals to abolish the department. This monograph will be of interest to political scientists, politicians,

policymakers, and government officials.
