Featuring over 400 full-color surgical photographs and drawings, this text/atlas is a step-by-step guide to the surgical approaches used to expose the facial skeleton. The authors describe in detail the key anatomic structures and the technical aspects of each approach, so that the surgeon can safely gain access to the region of the craniofacial skeleton requiring surgery. This Second Edition includes full-color intraoperative photographs that complement the surgical drawings. Several new approaches have been added—the transconjunctival approach to the medial orbit, subtarsal approach to the internal orbit, Weber-Ferguson approach to the midface, and facial degloving approach to the midface.

"I come from Des Moines. Somebody had to." And, as soon as Bill Bryson was old enough, he left. Des Moines couldn't hold him, but it did lure him back. After ten years in England he returned to the land of his youth, and drove almost 14,000 miles in search of a mythical small town called Amalgam, the kind of smiling village where the movies from his youth were set. Instead he drove through a series of horrific burgs, which he renamed Smellville, Fartville, Coleslaw, Coma, and Doldrum. At best his search led him to Anywhere, USA, a lookalike strip of gas stations, motels and hamburger outlets populated by obese and slow-witted hicks with a partiality for synthetic fibres. He discovered a continent

that was doubly lost: lost to itself because he found it blighted by greed, pollution, mobile homes and television; lost to him because he had become a foreigner in his own country.

Jonny Wilkinson's career has crossed three decades and four World Cups. He has accumulated phenomenal achievements, world points records, an impressive list of broken body parts, and a drop goal that will be remembered for ever. But the peculiar calmness with which he played the game masked a very different reality. In JONNY, he reveals the extraordinary psychology that he had to tame in order to be able to dominate his sport. For most of his life, he was driven by a quest for perfection and an obsession to be the best player in the world; here he shows how these two facets of his competitive mind took such a hold of him that they sent him to the top of the world, then swept him up and dragged him down into a spiral of despair. Jonny's career has spanned the far reaches: amazing highs and iconic moments, then a fight against injury that culminated in a battle with depression. Here he tells of the physical toll he knew his body was taking from rugby, even from his youth; he tells of how he never wanted to be a kicking fly-half but learned to adapt his natural game to play the style that Clive Woodward believed necessary to win a World Cup, and how he nearly walked out on Martin Johnson's England team 13 years later.

'I should have written you after my first reading of *The Living Currency*; it was already breath-taking and I should have responded. After reading it a few more times, I know it is the best book of our times.' Letter to Pierre Klossowski from Michel Foucault, winter 1970. *Living Currency* is the first English translation of Klossowski's *La monnaie vivante*. It offers an analysis of economic production as a mechanism of psychic production of desires and is a key work from this often overlooked but wonderfully creative French thinker.

It's a vanished world, and Peter Hugar was right there in it. The Lower East Side between 1972 and 1985 -- filled with artists, wannabe artists and hangers-on -- was a community of the misbegotten gathered from every town in America and relocated in the mean streets between Broadway and the Bowery. Nothing but their talent, their flamboyance, their rank gender-bending mockery and their arch irony supported them. Some made their names. Many came to grief. A few made art. In those days, the gutted streets of the Lower East Side looked like a war zone. Everyone lived and worked on the extreme outer margins of money and art, penniless and unknown. As a community, Downtown was a counterstatement to the rich New York of the banks, museums, media, corporations ... and the art world itself. That Downtown is forever gone. Time, gentrification, disease and death have taken their toll and turned this vibrant epoch into a chapter of art history. But before it vanished, its extravagant cast sat for Peter Hugar's camera -- and is now alive again in front of our eyes. Featured among others: Joe Brainard, William Burroughs, Remy Charlip, Edwin Denby, Divine, Ray Johnson, Fran Lebowitz, Charles Ludlum, Susan Sontag, Paul Thek, John Waters, Robert Wilson, David Wojnarowicz.

Microsculpture is a unique photographic study of insects in mind-blowing magnification that celebrates the wonders of nature and science. Levon Biss's photographs capture in breathtaking detail the beauty of the insect world and are printed in large-scale format to provide an unforgettable viewing experience. Each picture in Microsculpture is created from approximately 8,000 individual photographs. Segments of the specimen are lit and photographed separately using microscope lenses, then "stacked" to maintain sharp focus throughout. These images are then combined to create a single high-resolution file. From start to finish, each portrait takes approximately 4 weeks to create. The project has captured the attention of the world with features in WIRED and New Scientist. Microsculpture has been exhibited at the Oxford University Museum of Natural History and the Xposure 2016 International Photography Festival in Sharjah, U.A.E. It has been viewed by over half a million people so far and will be touring museums around the world from 2017 onward. The entomology collection has significant cultural and historical value, containing the world's oldest pinned insect specimen and many thousands of insects collected by pioneering Victorian explorers and biologists such as Charles Darwin and Alfred Russell Wallace.

An outstanding novel about a young Russian woman's life in exile after the Russian Revolution. The Book of Happiness is one of the outstanding novels the great Russian writer Nina Berberova wrote during the years she lived in Paris, and the most autobiographical. "All Berberova's characters live raw, unfurnished lives, in poverty, on the edge of cities, with little sense of belongingexcept in moments of epiphanyto their time and in life itself" (The Observer). Such a character is Vera, the protagonist of The Book of Happiness. At the novel's opening, Vera is summoned to the scene of a suicide, that of her childhood companion, Sam Adler, whose family left Russia in the early days of the revolution and whom Vera has not seen in many years. His death reduces Vera to a flood of tears and memories of the times before Sam's

departure, and thoughts about how her life has gone since her move to Paris where she lives tied to a brilliant but demanding

invalid husband. Berberova spins the story with a wonderful unsentimental poignancy, making it a beautiful testament to the indestructibility of happiness.
