Thy Soul Shall Bear Witness is a result of a collaboration between Selma Lagerlöf and the Swedish association. The novel was written as a means of public education about tuberculosis. It is set in a small town in Sweden at the beginning of the 20th century. Edith, a young "Slum Sister" (social worker) in the service of the Salvation Army is on her death bed dying of tuberculosis. She requests that before she dies, she would like to again see David Holm, one of her charges. It becomes apparent that the two have a special relationship.

Maus I: A Survivor's Tale and Maus II - the complete story of Vladek Spiegelman and his wife, living and surviving in Hitler's Europe. By addressing the horror of the Holocaust through cartoons, the author captures the everyday reality of fear and is able to explore the guilt, relief and extraordinary sensation of survival - and how the children of survivors are in their own way affected by the trials of their parents. A contemporary classic of immeasurable significance.

E. H. Gombrich's Little History of the World, though written in 1935, has become one of the treasures of historical writing since its first publication in English in 2005. The Yale edition alone has now sold over half a million copies, and the book is available worldwide in almost thirty languages. Gombrich was of course the best-known art historian of his time, and his text suggests illustrations on every page. This illustrated edition of the Little History brings together the pellucid humanity of his narrative with the images that may well have been in his mind's eye as he wrote the book. The two hundred illustrations—most of them in full color—are not simple embellishments,

though they are beautiful. They emerge from the text, enrich the author's intention, and deepen the pleasure of reading this remarkable work. For this edition the text is reset in a spacious format, flowing around illustrations that range from paintings to line drawings, emblems, motifs, and symbols. The book incorporates freshly drawn maps, a revised preface, and a new index. Blending high-grade design, fine paper, and classic binding, this is both a sumptuous gift book and an enhanced edition of a timeless account of human history.

Oblivion Laurence King Publishing West of Rome's two novellas, "My Dog Stupid" and "The Orgy," fulfill the promise of their rousing titles. The latter novella opens with virtuoso description: "His name was Frank Gagliano, and he did not believe in God. He was that most singular and startling craftsman of the building trade—a left-handed bricklayer. Like my father, Frank came from Torcella Peligna, a cliff-hugging town in the Abruzzi. Lean as a spider, he wore a leather cap and puttees the year around, and he was so bowlegged a dog could lope between his knees without touching them."

"a fascinating, thorough and expertly argued discussion of the modes and practices of cultural policy in an increasingly globalized and neoliberal world." *European Journal of Communication Rethinking Cultural Policy* addresses issues concerning culture, economy and power in the age of new-liberal globalization. It examines how public cultural policies have been rationalized in the past and how they are being rethought. Arguing that the study of culture and policy should not be confined to prevailing governmental agendas, the book offers a distinctive and independent analysis of cultural policy. The book examines a wide range of issues in cultural policy and blends a close reading of key theories with case studies. Topics covered include: Branding culture and exploitation The state, market and civil society How visitor attractions such as London's Millennium Dome are used for national aggrandizement and corporate business purposes Cultural development, diversity and ecological tourism in poorer parts of the world This is the ideal introduction to contemporary cultural policy for

undergraduate students in culture and media studies, sociology of culture, politics, arts administration and cultural management courses, as well as postgraduates and researchers.

A Little History of the World Read Books Ltd

A lyrical and deeply affecting novel recounting the seven days a father spends on the road with his daughter after kidnapping her during a parental visit. Attending a New England summer camp, young Eric Schroder—a first-generation East German immigrant—adopts the last name Kennedy to more easily fit in, a fateful white lie that will set him on an improbable and ultimately tragic course. SCHRODER relates the story of Eric's urgent escape years later to Lake Champlain, Vermont, with his six-year-old daughter, Meadow, in an attempt to outrun the authorities amid a heated custody battle with his wife, who will soon discover that her husband is not who he says he is. From a correctional facility, Eric surveys the course of his life to understand—and maybe even explain—his behavior: the painful separation from his mother in childhood; a harrowing escape to America with his taciturn father; a romance that withered under a shadow of lies; and his proudest moments and greatest regrets as a flawed but loving father. Alternately lovesick and ecstatic, Amity Gaige's deftly imagined novel offers a profound meditation on history and fatherhood, and the many identities we take on in our lives—those we are born with and those we construct for ourselves.

A Mystery in the Forest Farrar, Straus and Giroux

Oblivion is a heartbreaking, exquisitely written memorial to the author's father, Héctor Abad Gómez, whose criticism of

the Colombian regime led to his murder by paramilitaries in 1987. Twenty years in the writing, it paints an unforgettable picture of a man who followed his conscience and paid for it with his life during one of the darkest periods in Latin America's recent history.

NEW YORK TIMES BESTSELLER • The #1 New York Times bestselling author of World War Z is back with “the Bigfoot thriller you didn’t know you needed in your life, and one of the greatest horror novels I’ve ever read” (Blake Crouch, author of Dark Matter and Recursion). FINALIST FOR THE LOCUS AWARD As the ash and chaos from Mount Rainier’s eruption swirled and finally settled, the story of the Greenloop massacre has passed unnoticed, unexamined . . . until now. The journals of resident Kate Holland, recovered from the town’s bloody wreckage, capture a tale too harrowing—and too earth-shattering in its implications—to be forgotten. In these pages, Max Brooks brings Kate’s extraordinary account to light for the first time, faithfully reproducing her words alongside his own extensive investigations into the massacre and the legendary beasts behind it. Kate’s is a

tale of unexpected strength and resilience, of humanity’s defiance in the face of a terrible predator’s gaze, and, inevitably, of savagery and death. Yet it is also far more than that. Because if what Kate Holland saw in those days is real, then we must accept the impossible. We must accept that the creature known as Bigfoot walks among us—and that it is a beast of terrible strength and ferocity. Part survival narrative, part bloody horror tale, part scientific journey into the boundaries between truth and fiction, this is a Bigfoot story as only Max Brooks could chronicle it—and like none you’ve ever read before. Praise for Devolution “Delightful . . . [A] tale of supernatural mayhem that fans of King and Crichton alike will enjoy.”—Kirkus Reviews (starred review) “The story is told in such a compelling manner that horror fans will want to believe and, perhaps, take the warning to heart.”—Booklist (starred review)
